Abstracts

A Lead-acid battery testing equipment is an electronic device intended for testing the capacity and life cycle of lead-acid batteries. Lead-acid is the oldest rechargeable battery in existence. Invented by the French physician Gaston Plant? in 1859, lead-acid was the first rechargeable battery for commercial use. Their key advantages include relatively high power-to-weight ratio, low cost, reliability, availability of a wide range of capacities and sizes, and tolerance to over charging. According to Gen Consulting Company, global lead-acid (LA) battery test equipment market is projected to grow at a CAGR of 3.4% during the forecast period 2020-2026. Growing potential for lead-acid (LA) battery test equipment in industry is the chief contributor for the growth of the market.

The report offers a breakdown of market shares by application, including Automotive, Telecommunications, UPS. On the basis of region, the lead-acid (LA) battery test equipment industry is analyzed across North America, Europe, Asia-Pacific, South America and MEA (the Middle East, and Africa).

By Application:

Automotive

Telecommunications

UPS

By region, the market is analyzed across North America, Asia Pacific, Europe, Middle

East & Africa and South America. This report forecasts revenue growth at global, regional & country level from 2020 to 2026.

North America (U.S., Canada, Mexico, etc.)

Asia-Pacific (China, Japan, India, Korea, Australia, Indonesia, Taiwan, Thailand, etc.)

Europe (Germany, UK, France, Italy, Russia, Spain, etc.)

Middle East & Africa (Turkey, Saudi Arabia, Iran, Egypt, Nigeria, UAE, Israel, South Africa, etc.)

South America (Brazil, Argentina, Colombia, Chile, Venezuela, Peru, etc.)

The market research report covers the analysis of key stake holders of the lead-acid (LA) battery test equipment market. Some of the leading players profiled in the report include:

ACT Meters Ltd.

Clore Automotive, LLC

Hioki E.E. Corporation

Schumacher Electric Corporation

B&K Precision Corporation

Midtronics Inc

ZTS, Inc.

Megger Limited

*list is not exhaustive, request free sample to get a complete list of companies

The base year of the study is 2019, and forecasts run up to 2026.

Research Objective

To analyze and forecast the market size of global lead-acid (LA) battery test equipment market.

To classify and forecast global lead-acid (LA) battery test equipment market based on application.

To identify drivers and challenges for global lead-acid (LA) battery test equipment market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in global lead-acid (LA) battery test equipment market.

To conduct pricing analysis for global lead-acid (LA) battery test equipment market.

To identify and analyze the profile of leading players operating in global lead-acid (LA) battery test equipment market.

The report is useful in providing answers to several critical questions that are important for the industry stakeholders such as manufacturers and partners, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities. Key target audience are:

Manufacturers of lead-acid (LA) battery test equipment

Raw material suppliers

Market research and consulting firms

Government bodies such as regulating authorities and policy makers

Organizations, forums and alliances related to lead-acid (LA) battery test equipment
