Abstracts

Medical device coatings are specialized surface coatings that are applied to medical devices to improve their performance, functionality, and safety. These coatings can be made from a variety of materials, including polymers, metals, ceramics, and combinations thereof, and can be applied using various techniques such as spraying, dipping, electroplating or electrospinning. According to the latest data, the market size of the global medical device coatings sector is expected to rise by USD 5.0 billion with a CAGR of 6.07% by the end of 2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global medical device coatings market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, material, coating type, and region. The global market for medical device coatings can be segmented by product: catheters, implants, electrosurgical instruments, stents, others. The catheters segment is estimated to account for the largest share of the global medical device coatings market. Medical device coatings market is further segmented by material: metallic, non-metallic. The metallic segment held the largest revenue share in 2022. Based on coating type, the medical device coatings market is segmented into: hydrophilic, antimicrobial, drug-eluting, thromboresistant, others. Globally, the hydrophilic segment made up the largest share of the medical device coatings market. On the basis of region, the medical device coatings market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. North America was the largest contributor to the global medical device coatings market in 2022.

Market Segmentation

By product: catheters, implants, electrosurgical instruments, stents, others

By material: metallic, non-metallic

By coating type: hydrophilic, antimicrobial, drug-eluting, thromboresistant, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report has also analysed the competitive landscape of the global medical device coatings market with some of the key players being AST Products, Inc., BioInteractions Ltd., Covalon Technologies Ltd., Royal DSM N.V., Hydromer, Inc., Specialty Coating Systems, Inc., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global medical device coatings market.

To classify and forecast the global medical device coatings market based on product, material, coating type, region.

To identify drivers and challenges for the global medical device coatings market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global medical device coatings market.

To identify and analyze the profile of leading players operating in the global medical device coatings market.

Why Choose This Report

Gain a reliable outlook of the global medical device coatings market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY PRODUCT

Catheters
Implants
Electrosurgical instruments
Stents
Others

PART 6. MARKET BREAKDOWN BY MATERIAL

Metallic
Non-metallic

PART 7. MARKET BREAKDOWN BY COATING TYPE

Hydrophilic
Antimicrobial
Drug-eluting

Thromboresistant
Others

PART 8. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 9. KEY COMPANIES

AST Products, Inc.
BioInteractions Ltd.
Covalon Technologies Ltd.
Royal DSM N.V.
Hydromer, Inc.
Specialty Coating Systems, Inc.
