Abstracts

Medical imaging analysis software refers to a specialized type of software that is used to process and analyze medical images, such as those generated by MRI, CT scan, Ultrasound, PET, and X-ray machines. This software plays a critical role in modern healthcare as it allows medical professionals to obtain detailed information about internal structures, tissues or organs of the human body, and make accurate diagnoses. According to the latest data, the market size of the global medical imaging analysis software sector is expected to rise by USD 2.2 billion with a CAGR of 7.53% by the end of 2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global medical imaging analysis software market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the image type, modality, software type, end user, and region. The global market for medical imaging analysis software can be segmented by image type: 2D image, 3D image, 4D image. The 3D image segment was the largest contributor to the global medical imaging analysis software market in 2022. Medical imaging analysis software market is further segmented by modality: tomography, ultrasound imaging, radiographic imaging, X-ray imaging, MRI, others. According to the research, the tomography segment had the largest share in the global medical imaging analysis software market. Based on software type, the medical imaging analysis software market is segmented into: integrated software, standalone software. The

integrated software segment held the largest revenue share in 2022. On the basis of end user, the medical imaging analysis software market also can be divided into: hospitals, diagnostic center, research center, others. Globally, the hospitals segment made up the largest share of the medical imaging analysis software market. Medical imaging analysis software market by region is categorized into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

Market Segmentation

By image type: 2D image, 3D image, 4D image

By modality: tomography, ultrasound imaging, radiographic imaging, X-ray imaging, MRI, others

By software type: integrated software, standalone software

By end user: hospitals, diagnostic center, research center, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report explores the recent developments and profiles of key vendors in the Global Medical Imaging Analysis Software Market, including Canon Medical Systems Corporation, FUJIFILM Holdings Corporation, Siemens Healthineers AG, GE Healthcare, Carestream Health, Inc., IBM Corporation, Koninklijke Philips NV, Agfa-Gevaert N.V., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global medical imaging analysis software market.

To classify and forecast the global medical imaging analysis software market based on image type, modality, software type, end user, region.

To identify drivers and challenges for the global medical imaging analysis software market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global medical imaging analysis software market.

To identify and analyze the profile of leading players operating in the global medical imaging analysis software market.

Why Choose This Report

Gain a reliable outlook of the global medical imaging analysis software market forecasts

from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY IMAGE TYPE

2D image
3D image
4D image

PART 6. MARKET BREAKDOWN BY MODALITY

Tomography
Ultrasound imaging
Radiographic imaging
X-ray imaging
MRI
Others

PART 7. MARKET BREAKDOWN BY SOFTWARE TYPE

Integrated software

Standalone software

PART 8. MARKET BREAKDOWN BY END USER

Hospitals
Diagnostic center
Research center
Others

PART 9. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 10. KEY COMPANIES

Canon Medical Systems Corporation
FUJIFILM Holdings Corporation
Siemens Healthineers AG
GE Healthcare
Carestream Health, Inc.
IBM Corporation
Koninklijke Philips NV
Agfa-Gevaert N.V.

DISCLAIMER

I would like to order

Product name: Global Medical Imaging Analysis Software Market 2023-2029

Product link: <https://marketpublishers.com/r/GEAF8E14E9C1EN.html>

Price: US\$ 2,850.00 (Single User License / Electronic Delivery)
