Abstracts

Medical suction devices are commonly used in hospitals, clinics, and emergency medical services to remove blood, mucus, vomit, or other fluids from the patient's airway or other parts of the body. They work by creating a vacuum or negative pressure that draws the unwanted substances out of the patient's body and into a collection canister or bag for disposal. Medical suction devices are crucial in many medical procedures and can help to prevent complications and infections. According to the latest research, the global medical suction devices market is poised to grow by USD 0.6 billion during 2023-2029, progressing at a CAGR of 6.16% during the forecast period.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global medical suction devices market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, portability, application, and region. The global market for medical suction devices can be segmented by type: AC-powered, battery-powered, dual (AC and battery) powered, manually operated. The AC-powered segment is estimated to account for the largest share of the global medical suction devices market. Medical suction devices market is further segmented by portability: hand-held suction device, wall-mounted suction device. The wall-mounted suction device segment held the largest revenue share in 2022. Based on application, the medical suction devices market is segmented into: airway clearing, surgical, research and diagnostics, others. Globally, the surgical segment made up the largest share of the medical suction devices market. On the basis of region, the medical suction devices market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

North America was the largest contributor to the global medical suction devices market in 2022.

Market Segmentation

By type: AC-powered, battery-powered, dual (AC and battery) powered, manually operated

By portability: hand-held suction device, wall-mounted suction device

By application: airway clearing, surgical, research and diagnostics, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report has also analysed the competitive landscape of the global medical suction devices market with some of the key players being Allied Healthcare Products, Inc., Amsino International Inc., Asahi Kasei Corporation, Integra Biosciences AG, Labconco Corporation, Laerdal Medical Corporation, Medela AG, MG Electric Ltd., Olympus Corporation, Precision Medical Inc., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global medical suction devices market.

To classify and forecast the global medical suction devices market based on type, portability, application, region.

To identify drivers and challenges for the global medical suction devices market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global medical suction devices market.

To identify and analyze the profile of leading players operating in the global medical suction devices market.

Why Choose This Report

Gain a reliable outlook of the global medical suction devices market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY TYPE

AC-powered
Battery-powered
Dual (AC and battery) powered
Manually operated

PART 6. MARKET BREAKDOWN BY PORTABILITY

Hand-held suction device
Wall-mounted suction device

PART 7. MARKET BREAKDOWN BY APPLICATION

Airway clearing
Surgical
Research and diagnostics
Others

PART 8. MARKET BREAKDOWN BY REGION

North America

Europe

Asia-Pacific

MEA (Middle East and Africa)

Latin America

PART 9. KEY COMPANIES

Allied Healthcare Products, Inc.

Amsino International Inc.

Asahi Kasei Corporation

Integra Biosciences AG

Labconco Corporation

Laerdal Medical Corporation

Medela AG

MG Electric Ltd.

Olympus Corporation

Precision Medical Inc.

DISCLAIMER

I would like to order

Product name: Global Medical Suction Devices Market 2023-2029

Product link: <https://marketpublishers.com/r/GD78E3A0E662EN.html>

Price: US\$ 2,750.00 (Single User License / Electronic Delivery)
