The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global medium and heavy-lift launch vehicle market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the medium and heavy-lift launch vehicle industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the subsystem, launch vehicle class, end user, and region. The global market for medium and heavy-lift launch vehicle can be segmented by subsystem: thermal system, stage separation, electrical system, control system, propulsion, avionics, structure. The propulsion segment held the largest revenue share in 2021. Medium and heavy-lift launch vehicle market is further segmented by launch vehicle class: super heavy lift launch vehicle, heavy lift launch vehicle, medium lift launch vehicle. Among these, the medium lift launch vehicle segment was accounted for the highest revenue generator in 2021. Based on end user, the medium and heavy-lift launch vehicle market is segmented into: government, commercial. The government segment captured the largest share of the market in 2021. On the basis of region, the medium and heavy-lift launch vehicle market also can be divided into: North America, Europe, Asia-Pacific. According to the research, Asia-Pacific had the largest share in the global medium and heavy-lift launch vehicle market.

Market Segmentation

By subsystem: thermal system, stage separation, electrical system, control system, propulsion, avionics, structure

By launch vehicle class: super heavy lift launch vehicle, heavy lift launch vehicle, medium lift launch vehicle

By end user: government, commercial

By region: North America, Europe, Asia-Pacific

The market research report covers the analysis of key stake holders of the global medium and heavy-lift launch vehicle market. Some of the leading players profiled in the report include ArianeGroup, Avio S.p.A., BlueOrigin, LLC, Indian Space Research Organisation, Korea Aerospace Industries (KAI), Mitsubishi Heavy Industries, Ltd., Rocket Lab USA, Inc., ROSCOSMOS, Space Exploration Technologies Corp., The China Aerospace Science and Technology Corporation, United Launch Alliance, LLC, among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global medium and heavy-lift launch vehicle market.

To classify and forecast the global medium and heavy-lift launch vehicle market based on subsystem, launch vehicle class, end user, region.

To identify drivers and challenges for the global medium and heavy-lift launch vehicle market.

To examine competitive developments such as mergers & acquisitions,

agreements, collaborations and partnerships, etc., in the global medium and heavy-lift launch vehicle market.

To identify and analyze the profile of leading players operating in the global medium and heavy-lift launch vehicle market.

Why Choose This Report

Gain a reliable outlook of the global medium and heavy-lift launch vehicle market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.
