Abstracts

Metallic glasses (also known as glassy metals or, inappropriately, as amorphous metals) are noncrystalline materials composed of either pure metals or combinations of metals and metalloids. They are metals in the sense that their electrical, magnetic, and optical properties are typical of metals. According to market research study published by Gen Consulting Company, the global metallic glass market stood at around USD 814 million in 2021 and is projected to rise to a worth of USD 1,240 million by 2028 end, thereby garnering a CAGR of 6.2% during 2022-2028.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global metallic glass market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the metallic glass industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, end user, and region. The global market for metallic glass can be segmented by product: metal-metal glasses, metal-metalloid glasses. The metal-metal glasses segment held the largest revenue share in 2021. Metallic glass market is further segmented by end user: electrical and electronics, magnetic products, sensors and transducers, others. Among these, the electrical and electronics segment was accounted for the highest revenue generator in 2021. Based on region, the metallic glass market is segmented into: Asia Pacific, Europe, North America, Rest of the World (RoW). Asia Pacific captured the largest share of the market in 2021.

By product:

metal-metal glasses

metal-metalloid glasses

By end user:

electrical and electronics

magnetic products

sensors and transducers

others

By region:

Asia Pacific

Europe

North America

Rest of the World (RoW)

The E&E market is further segmented into amorphous metal distribution transformers (AMDTs), cell phones & smartphones, others. Globally, the AMDTs segment made up the largest share of the metallic glass market.

The report has also analysed the competitive landscape of the global metallic glass market with some of the key players being Adamant Namiki Precision Jewel Co., Ltd., China Amorphous Technology Co., Ltd., Epson Atmix Corp., Eutectix, LLC, Hereaus Group, Hitachi Metals, Ltd., Liquidmetal Technologies Inc., Materion Corp., PX Group SA, RS Alloys, Shanghai Antai-Zhigao Amorphous Metal Co., Ltd., Usha Amorphous Metal, among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global metallic glass market.

To classify and forecast the global metallic glass market based on product, end user, region.

To identify drivers and challenges for the global metallic glass market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global metallic glass market.

To identify and analyze the profile of leading players operating in the global metallic glass market.

Why Choose This Report

Gain a reliable outlook of the global metallic glass market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
