Abstracts

The global modern manufacturing execution system market is likely to register a CAGR of over 10.2% with an incremental growth of USD 11 billion during the forecast period 2022-2028.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global modern manufacturing execution system market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the modern manufacturing execution system industry.

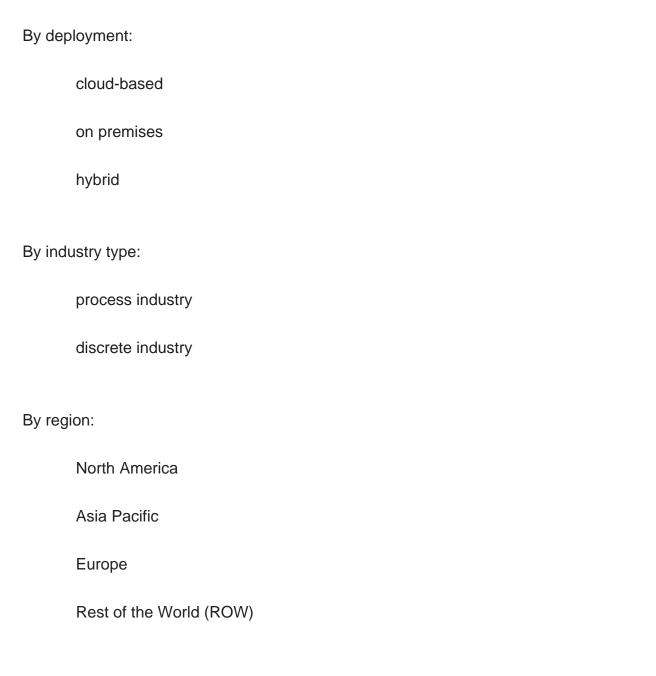

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the component, deployment, industry type, and region. The global market for modern manufacturing execution system can be segmented by component: software, services. Modern manufacturing execution system market is further segmented by deployment: cloud-based, on premises, hybrid. Based on industry type, the modern manufacturing execution system market is segmented into: process industry, discrete industry. On the basis of region, the modern manufacturing execution system market also can be divided into: North America, Asia Pacific, Europe, Rest of the World (ROW).

By component:

software

services

The process industry market is further segmented into chemicals, energy & power, food & beverages, pharmaceutical & life sciences, pulp & paper, others. The pharmaceutical & life sciences segment captured the largest share of the market in 2021 and is expected to maintain its dominance during the forecast period. Furthermore, the discrete industry market has been categorized into aerospace & defense, automotive, electronics & semiconductors, FMCG, medical, others.

The market research report covers the analysis of key stake holders of the global modern manufacturing execution system market. Some of the leading players profiled in the report include ABB Ltd., AVEVA Group plc, Dassault Systemes S.A., EazyWorks

Inc., Emerson Electric Co., General Electric Company, Honeywell International Inc., Oracle Corporation, Rockwell Automation, Inc. (Plex Systems, Inc.), SAP SE, Siemens AG, Sanmina Corporation (42Q), among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global modern manufacturing execution system market.

To classify and forecast the global modern manufacturing execution system market based on component, deployment, industry type, region.

To identify drivers and challenges for the global modern manufacturing execution system market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global modern manufacturing execution system market.

To identify and analyze the profile of leading players operating in the global modern manufacturing execution system market.

Why Choose This Report

Gain a reliable outlook of the global modern manufacturing execution system market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
