Abstracts

According to Gen Consulting Company, the global night vision devices market is set to achieve an incremental growth of USD 4.4 billion, accelerating at a CAGR of almost 7.6% during the forecast period 2022-2028.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global night vision devices market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the night vision devices industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, technology, application, and region. The global market for night vision devices can be segmented by type: camera, goggles, monocular and binocular, rifle scope. In 2021, the camera segment made up the largest share of revenue generated by the night vision devices market. Night vision devices market is further segmented by technology: thermal imaging, image intensifier, infrared illumination, others. The thermal imaging segment was the largest contributor to the global night vision devices market in 2021. Based on application, the night vision devices market is segmented into: military, wildlife spotting and conservation, surveillance, navigation, others. The military segment is estimated to account for the largest share of the global night vision devices market. On the basis of region, the night vision devices market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. North America held the largest share of the global night vision devices market in 2021 and is anticipated to hold its share during the forecast period.

Market Segmentation

By type: camera, goggles, monocular and binocular, rifle scope

By technology: thermal imaging, image intensifier, infrared illumination, others

By application: military, wildlife spotting and conservation, surveillance, navigation, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides analysis of the key companies of the industry and their detailed company profiles including BAE Systems plc, Bushnell Corporation, Excelitas Technologies Corp., Intevac Inc., L3Harris Technologies Inc., Panasonic Corporation, Raytheon Technologies Corporation, Sharp Corporation, Teledyne FLIR LLC, Thales Group SA, among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global night vision devices market.

To classify and forecast the global night vision devices market based on type, technology, application, region.

To identify drivers and challenges for the global night vision devices market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global night vision devices market.

To identify and analyze the profile of leading players operating in the global night

vision devices market.

Why Choose This Report

Gain a reliable outlook of the global night vision devices market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY TYPE

Camera
Goggles
Monocular and binocular
Rifle scope

PART 6. MARKET BREAKDOWN BY TECHNOLOGY

Thermal imaging
Image intensifier
Infrared illumination
Others

PART 7. MARKET BREAKDOWN BY APPLICATION

Military

Wildlife spotting and conservation
Surveillance
Navigation
Others

PART 8. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 9. KEY COMPANIES

BAE Systems plc
Bushnell Corporation
Excelitas Technologies Corp.
Intevac Inc.
L3Harris Technologies Inc.
Panasonic Corporation
Raytheon Technologies Corporation
Sharp Corporation
Teledyne FLIR LLC
Thales Group SA
