## Abstracts

The global minimally invasive spine technologies market size is projected to grow by USD 2.6 billion from 2023 to 2029, registering a CAGR of 9.82 percent, according to the latest market data. The market for minimally invasive spine technologies is experiencing significant growth as more advanced surgical techniques and technologies are being utilized to treat spinal disorders with minimal body incisions. These procedures offer a range of benefits compared to traditional open surgeries, including the avoidance of damage to spinal muscles, reduced pain conditions, and faster recovery times.

The demand for minimally invasive procedures is growing among patients, who recognize the advantages such as reduced scarring, shorter hospital stays, and faster recovery times. The convenience and positive outcomes associated with these procedures are expected to contribute to the market's growth in the forecast period.

Furthermore, the aging population plays a significant role in driving market expansion. As individuals age, the incidence of degenerative spinal disorders and back pain conditions tends to increase. Minimally invasive spine technologies offer effective treatment options for addressing these issues, further fueling the market's growth.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global minimally invasive spine technologies market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

### Market Segmentation

Condition: degenerative disc disease, herniated disc, spinal fracture, spinal stenosis, spine deformity, spinal infection, spinal tumor

End user: hospitals, orthopedic clinics, ambulatory surgical centers  
Region: Asia-Pacific, Europe, North America, Middle East and Africa (MEA), South America

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the condition, end user, and region. The global market for minimally invasive spine technologies can be segmented by condition: degenerative disc disease, herniated disc, spinal fracture, spinal stenosis, spine deformity, spinal infection, spinal tumor. In 2022, the degenerative disc disease segment made up the largest share of revenue generated by the minimally invasive spine technologies market. Minimally invasive spine technologies market is further segmented by end user: hospitals, orthopedic clinics, ambulatory surgical centers. The hospitals segment was the largest contributor to the global minimally invasive spine technologies market in 2022. Based on region, the minimally invasive spine technologies market is segmented into: Asia-Pacific, Europe, North America, Middle East and Africa (MEA), South America. North America is estimated to account for the largest share of the global minimally invasive spine technologies market.

#### Major Companies and Competitive Landscape

The report explores the recent developments and profiles of key vendors in the Global Minimally Invasive Spine Technologies Market, including Alphatec Holdings, Inc., B. Braun SE, Boston Scientific Corporation, Globus Medical, Inc., Johnson & Johnson, Medtronic plc, NuVasive, Inc., Orthofix Medical Inc., Richard Wolf GmbH, Stryker Corporation, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

#### Scope of the Report

To analyze and forecast the market size of the global minimally invasive spine technologies market.

To classify and forecast the global minimally invasive spine technologies market based on condition, end user, region.

To identify drivers and challenges for the global minimally invasive spine technologies market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global minimally invasive spine technologies market.

To identify and analyze the profile of leading players operating in the global minimally invasive spine technologies market.

### Why Choose This Report

Gain a reliable outlook of the global minimally invasive spine technologies market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

## Contents

### **PART 1. INTRODUCTION**

- 1.1 Description
- 1.2 Objectives of The Study
- 1.3 Market Segment
- 1.4 Years Considered for The Report
- 1.5 Currency
- 1.6 Key Target Audience

### **PART 2. RESEARCH METHODOLOGY**

- 2.1 Primary Research
- 2.2 Secondary Research

### **PART 3. EXECUTIVE SUMMARY**

### **PART 4. MARKET OVERVIEW**

- 4.1 Introduction
- 4.2 Drivers
- 4.3 Restraints

### **PART 5. GLOBAL NUCLEAR DECOMMISSIONING MARKET BY REACTOR TYPE**

- 5.1 Pressurized water reactors (PWR)
- 5.2 Boiling water reactor (BWR)
- 5.3 Others

### **PART 6. GLOBAL NUCLEAR DECOMMISSIONING MARKET BY STRATEGY**

- 6.1 Immediate dismantling
- 6.2 Deferred dismantling
- 6.3 Entombment

### **PART 7. GLOBAL NUCLEAR DECOMMISSIONING MARKET BY CAPACITY**

- 7.1 Up to 800 MW

7.2 801-1,000 MW

7.3 Above 1,000 MW

## **PART 8. GLOBAL NUCLEAR DECOMMISSIONING MARKET BY REGION**

8.1 Asia-Pacific

8.2 Europe

8.3 North America

8.4 RoW (Rest of World)

## **PART 9. COMPANY PROFILES**

9.1 AECOM Technology Corporation

9.2 Ansaldo Energia S.p.A.

9.3 Atkins Ltd.

9.4 ATS Corporation

9.5 Babcock International Group plc

9.6 Fluor Corporation

9.7 Hitachi, Ltd.

9.8 NuVia, Inc.

9.9 Studsvik AB

9.10 Veolia Environnement SA

9.11 Westinghouse Electric Company

DISCLAIMER

## I would like to order

Product name: Global Nuclear Decommissioning Market 2023

Product link: <https://marketpublishers.com/r/GF68134C227BEN.html>

Price: US\$ 2,150.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
