## Abstracts

The plastics injection molding process is widely used in various industries, including automotive, medical, electronics, and consumer goods. It is a highly efficient and cost-effective method of producing complex parts with high precision and consistency. The process can produce parts with a wide range of shapes, sizes, and colors, and can be used to produce parts with varying levels of complexity, from simple to highly intricate. The global plastics injection molding market is projected to rise by 41.5 million tons by 2029, according to the latest market study results. It is anticipated to expand at a CAGR of 4.3 percent during the forecast period. The plastics injection molding market is driven by factors such as the growing demand for lightweight and durable plastic products, the increasing use of plastic in various industries, and the development of new and advanced materials and technologies. The plastics injection molding market is driven by factors such as the growing demand for lightweight and durable plastic products, the increasing use of plastic in various industries, and the development of new and advanced materials and technologies.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global plastics injection molding market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the raw material type, application, and region. The global market for plastics injection molding can be segmented by raw material type: polypropylene (PP), acrylonitrile butadiene styrene (ABS), polystyrene (PS), polyethylene (PE), polyvinyl chloride (PVC), polycarbonate (PC), polyamide, others. In 2022, the polyethylene (PE) segment made up the largest share of the plastics injection

molding market. Plastics injection molding market is further segmented by application: packaging, construction, consumer goods, electronics, automotive, medical, others. The packaging segment was the largest contributor to the global plastics injection molding market in 2022. Based on region, the plastics injection molding market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. Asia-Pacific is estimated to account for the largest share of the global plastics injection molding market.

### Market Segmentation

By raw material type: polypropylene (PP), acrylonitrile butadiene styrene (ABS), polystyrene (PS), polyethylene (PE), polyvinyl chloride (PVC), polycarbonate (PC), polyamide, others

By application: packaging, construction, consumer goods, electronics, automotive, medical, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report explores the recent developments and profiles of key vendors in the Global Plastics Injection Molding Market, including ALPLA Group, Amcor plc, AptarGroup, Inc., Berry Global Inc., EVCO Plastics, IAC Group, Magna International Inc., Quantum Plastics, LLC, Silgan Holdings Inc., The Rodon Group, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

### Scope of the Report

To analyze and forecast the market size of the global plastics injection molding market.

To classify and forecast the global plastics injection molding market based on raw material type, application, region.

To identify drivers and challenges for the global plastics injection molding market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global plastics injection molding market.

To identify and analyze the profile of leading players operating in the global plastics injection molding market.

### Why Choose This Report

Gain a reliable outlook of the global plastics injection molding market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.  
The market estimate for ease of analysis across scenarios in Excel format.  
Strategy consulting and research support for three months.  
Print authentication provided for the single-user license.

## Contents

### **PART 1. INTRODUCTION**

Report description  
Objectives of the study  
Market segment  
Years considered for the report  
Currency  
Key target audience

### **PART 2. METHODOLOGY**

### **PART 3. EXECUTIVE SUMMARY**

### **PART 4. MARKET OVERVIEW**

Introduction  
Drivers  
Restraints

### **PART 5. MARKET BREAKDOWN BY RAW MATERIAL TYPE**

Polypropylene (PP)  
Acrylonitrile butadiene styrene (ABS)  
Polystyrene (PS)  
Polyethylene (PE)  
Polyvinyl chloride (PVC)  
Polycarbonate (PC)  
Polyamide  
Others

### **PART 6. MARKET BREAKDOWN BY APPLICATION**

Packaging  
Construction  
Consumer goods  
Electronics  
Automotive

Medical  
Others

## **PART 7. MARKET BREAKDOWN BY REGION**

North America  
Europe  
Asia-Pacific  
MEA (Middle East and Africa)  
Latin America

## **PART 8. KEY COMPANIES**

ALPLA Group  
Amcor plc  
AptarGroup, Inc.  
Berry Global Inc.  
EVCO Plastics  
IAC Group  
Magna International Inc.  
Quantum Plastics, LLC  
Silgan Holdings Inc.  
The Rodon Group

## **DISCLAIMER**

## I would like to order

Product name: Global Plastics Injection Molding Market 2023-2029

Product link: <https://marketpublishers.com/r/GD1FF0A6087BEN.html>

Price: US\$ 2,650.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
