Abstracts

Polymethacrylimide (PMI) is a polymer belongs to the group of polyimides. It is primarily used in the production of hard foams used as a core material in sandwich components which are subject to high thermal and mechanical stress. PMI foam is widely used in aerospace, aviation, military, marine, automotive and high-speed trains, etc. The global PMI foams market market is projected to rise by USD 19 million by 2028, according to a new report by Gen Consulting Company. It is anticipated to expand at a CAGR of 5.1 percent during the forecast period.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global PMI foams market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the PMI foams industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the end user, and region. The global market for PMI foams can be segmented by end user: aerospace and defense, automotive, wind energy, others. The aerospace and defense segment is estimated to account for the largest share of the global PMI foams market. PMI foams market is further segmented by region: Asia Pacific, Europe, North America, Rest of the World (RoW). Europe held the largest revenue share in 2021.

By end user:

aerospace and defense

automotive

wind energy

others

By region:

Asia Pacific

Europe

North America

Rest of the World (RoW)

The report has also analysed the competitive landscape of the global PMI foams market with some of the key players being Baoding Meiwo Engineering Materials Technology Co., Ltd., Cashem Advanced Materials Hi-tech Co., Ltd., Evonik Industries AG, Hunan Rifeng Composite Co., Ltd., Jiaying Sky Composites Co., Ltd., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global PMI foams market.

To classify and forecast the global PMI foams market based on end user, region.

To identify drivers and challenges for the global PMI foams market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global PMI foams

market.

To identify and analyze the profile of leading players operating in the global PMI foams market.

Why Choose This Report

Gain a reliable outlook of the global PMI foams market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
