

Global Portable Air Compressor Market 2023-2029

https://marketpublishers.com/r/GBCA91FB3B42EN.html Date: March 2023 Pages: 74 Price: US\$ 3,250.00 (Single User License) ID: GBCA91FB3B42EN

Abstracts

Portable air compressors are designed to be easy to transport and can be used for a variety of applications, such as inflating tires, powering pneumatic tools, and operating spray guns. Portable air compressors typically include features such as pressure gauges, regulators, and safety valves to ensure safe and efficient operation. They may also include additional features, such as built-in air dryers or filters, to improve the quality of the compressed air. Portable air compressors are commonly used in construction, automotive, and industrial applications, as well as for home and DIY projects. The global portable air compressor market is anticipated to increase by USD 0.4 billion till 2029 at an average annual growth of 4.98 percent as per the latest market estimates.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global portable air compressor market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product type, fuel type, lubrication type, airflow type, end user, and region. The global market for portable air compressor can be segmented by product type: reciprocating, rotary, centrifugal, axial. Globally, the reciprocating segment made up the largest share of the portable air compressor market. Portable air compressor market is further segmented by fuel type: conventional, electric. The conventional segment captured the largest share of the market in 2022. Based on lubrication type, the portable air compressor market is segmented into: oil- injected, oilfree. According to the research, the oil- injected segment had the largest share in the global portable air compressor market. On the basis of airflow type, the portable air

compressor market also can be divided into: below 400 cfm, 400-800 cfm, above 800 cfm. The below 400 cfm segment held the largest revenue share in 2022. Portable air compressor market by end user is categorized into: manufacturing, construction, healthcare, automotive, power generation, oil & gas, agriculture, others. The portable air compressor market by region can be segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

Market Segmentation

By product type: reciprocating, rotary, centrifugal, axial By fuel type: conventional, electric By lubrication type: oil- injected, oil-free By airflow type: below 400 cfm, 400-800 cfm, above 800 cfm By end user: manufacturing, construction, healthcare, automotive, power generation, oil & gas, agriculture, others By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides a detailed analysis of several leading portable air compressor market vendors that include Atlas Copco, ELGi Compressors USA, Inc., Sullair LLC, Gardner Denver Inc., Kaeser Compressors, Inc., Ingersoll Rand Inc., Deere & Company, Doosan Portable Power, MAT Holdings, Inc., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global portable air compressor market. To classify and forecast the global portable air compressor market based on product type, fuel type, lubrication type, airflow type, end user, region.

To identify drivers and challenges for the global portable air compressor market. To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global portable air compressor market. To identify and analyze the profile of leading players operating in the global portable air compressor market.

Why Choose This Report

Gain a reliable outlook of the global portable air compressor market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data. The market estimate for ease of analysis across scenarios in Excel format. Strategy consulting and research support for three months. Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description Objectives of the study Market segment Years considered for the report Currency Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY PRODUCT TYPE

Reciprocating Rotary Centrifugal Axial

PART 6. MARKET BREAKDOWN BY FUEL TYPE

Conventional Electric

PART 7. MARKET BREAKDOWN BY LUBRICATION TYPE

Oil- injected Oil-free

PART 8. MARKET BREAKDOWN BY AIRFLOW TYPE

Global Portable Air Compressor Market 2023-2029

Below 400 cfm 400-800 cfm Above 800 cfm

PART 9. MARKET BREAKDOWN BY END USER

Manufacturing
Construction
Healthcare
Automotive
Power generation
Oil & gas
Agriculture
Others

PART 10. MARKET BREAKDOWN BY REGION

North America Europe Asia-Pacific MEA (Middle East and Africa) Latin America

PART 11. KEY COMPANIES

Atlas Copco ELGi Compressors USA, Inc. Sullair LLC Gardner Denver Inc. Kaeser Compressors, Inc. Ingersoll Rand Inc. Deere & Company Doosan Portable Power MAT Holdings, Inc.
