Abstracts

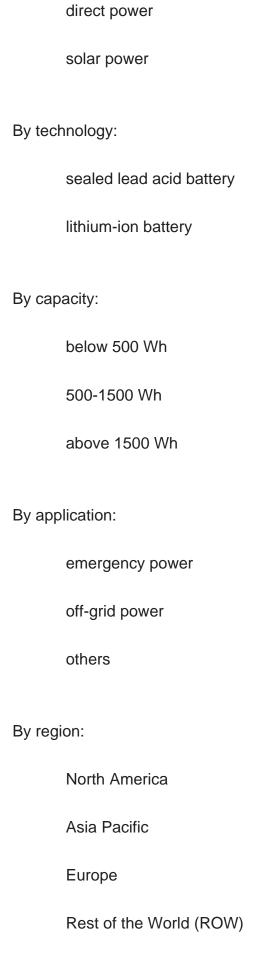

Portable power stations are integrated backup energy systems that generally designed to power smaller electronic devices and appliances, from phones and table fans to heavy-duty work lights and CPAP machines. According to market research study published by Gen Consulting Company, the market size of the global portable power station sector is expected to rise by USD 132 million with a CAGR of 5.9% by the end of 2028.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global portable power station market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the portable power station industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the power source, technology, capacity, application, and region. The global market for portable power station can be segmented by power source: direct power, solar power. The direct power segment held the largest share of the global portable power station market in 2021 and is anticipated to hold its share during the forecast period. Portable power station market is further segmented by technology: sealed lead acid battery, lithium-ion battery. Globally, the lithium-ion battery segment made up the largest share of the portable power station market. Based on capacity, the portable power station market is segmented into: below 500 Wh, 500-1500 Wh, above 1500 Wh. On the basis of application, the portable power station market also can be divided into: emergency power, off-grid power, others. Portable power station market by region is categorized into: North America, Asia Pacific, Europe, Rest of the World (ROW).

By power source:

The global portable power station market report offers detailed information on several market vendors, including AIMTOM Co. Ltd., Anker Innovations Co., Ltd., ChargeTech Enterprises, LLC, Drow Enterprise Co., Ltd., Duracell Inc., Ecoflow Technology Ltd., Goal Zero LLC (NRG Energy, Inc.), Jackery, Inc., Klein Tools, Inc., Lion Energy Ltd., Maxoak Corporation (Bluetti), Midland Radio Corporation, Milwaukee Electric Tool Corp., Shenzhen Lipower Technology Co., Ltd, among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global portable power station market.

To classify and forecast the global portable power station market based on power source, technology, capacity, application, region.

To identify drivers and challenges for the global portable power station market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global portable power station market.

To identify and analyze the profile of leading players operating in the global portable power station market.

Why Choose This Report

Gain a reliable outlook of the global portable power station market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
