Abstracts

Pouch packaging is a flexible packaging product made from barrier film, foil, and spout and cap fitments that supports flowable liquid products. Pouches are designed with the flexible needs of the consumer in mind, as there are flexible sizing options to fit any product. The materials of the pouch stops vapour, odour, air, pests and light coming in contact with the product. Some films such as foil and nylon contain barrier properties adding extra strength. Hygiene perforations in the pouch also help the product breathe controlling moisture.
