## Abstracts

Powder metallurgy (PM) is a metal-forming process performed by heating compacted metal powders to just below their melting points. Over the past quarter century PM has become widely recognized as a superior way of producing high-quality parts for a variety of important applications. The global powder metallurgy market is anticipated to reach valuation of ~USD 32,130 million by 2028, representing a CAGR of 6.1% from 2022 to 2028 as per the latest report by Gen Consulting Company.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global powder metallurgy market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the powder metallurgy industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the metal type, end user, process, and region. The global market for powder metallurgy can be segmented by metal type: ferrous, non-ferrous. The ferrous segment held the largest revenue share in 2021. Powder metallurgy market is further segmented by end user: aerospace & defense, automotive & transportation, electrical & electronics, industrial machinery, power & energy, others. Based on process, the powder metallurgy market is segmented into: isostatic pressing, metal additive manufacturing, metal injection molding, press-and-sinter, others. On the basis of region, the powder metallurgy market also can be divided into: Asia Pacific, Europe, North America, Rest of the World (RoW).

By metal type:

ferrous

non-ferrous

By end user:

aerospace & defense

automotive & transportation

electrical & electronics

industrial machinery

power & energy

others

By process:

isostatic pressing

metal additive manufacturing

metal injection molding

press-and-sinter

others

By region:

Asia Pacific

Europe

North America

## Rest of the World (RoW)

The report has also analysed the competitive landscape of the global powder metallurgy market with some of the key players being AMT Pte. Ltd., Carpenter Technology Corporation, Catalus Corporation, Comtec Mfg., Inc., Fine Sinter Co., Ltd., Fukuda Metal Foil & Powder Co., Ltd., H.C. Starck GmbH, Hoganäs AB, Kennametal Inc., Melrose PLC, Miba AG, Sandvik AB, Showa Denko Materials Co., Ltd., Sumitomo Electric Industries, Ltd., among others.

**\*REQUEST FREE SAMPLE TO GET A COMPLETE LIST OF COMPANIES**

## Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

## Scope of the Report

To analyze and forecast the market size of the global powder metallurgy market.

To classify and forecast the global powder metallurgy market based on metal type, end user, process, region.

To identify drivers and challenges for the global powder metallurgy market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global powder metallurgy market.

To identify and analyze the profile of leading players operating in the global powder metallurgy market.

## Why Choose This Report

Gain a reliable outlook of the global powder metallurgy market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

## Contents

### **PART 1. INTRODUCTION**

Report description  
Objectives of the study  
Market segment  
Years considered for the report  
Currency  
Key target audience

### **PART 2. METHODOLOGY**

### **PART 3. EXECUTIVE SUMMARY**

### **PART 4. MARKET OVERVIEW**

Introduction  
Drivers  
Restraints  
Impact of COVID-19 pandemic

### **PART 5. MARKET BREAKDOWN BY METAL TYPE**

Ferrous  
Non-ferrous

### **PART 6. MARKET BREAKDOWN BY END USER**

Aerospace & defense  
Automotive & transportation  
Electrical & electronics  
Industrial machinery  
Power & energy  
Others

### **PART 7. MARKET BREAKDOWN BY PROCESS**

Isostatic pressing

Metal additive manufacturing  
Metal injection molding  
Press-and-sinter  
Others

## **PART 8. MARKET BREAKDOWN BY REGION**

Asia Pacific  
Europe  
North America  
Rest of the World (RoW)

## **PART 9. KEY COMPANIES**

AMT Pte. Ltd.  
Carpenter Technology Corporation  
Catalus Corporation  
Comtec Mfg., Inc.  
Fine Sinter Co., Ltd.  
Fukuda Metal Foil & Powder Co., Ltd.  
H.C. Starck GmbH  
Hoganas AB  
Kennametal Inc.  
Melrose PLC  
Miba AG  
Sandvik AB  
Showa Denko Materials Co., Ltd.  
Sumitomo Electric Industries, Ltd.
