Abstracts

The purpose of the protein assay is to determine the amount or concentration of a specific protein or an array of different proteins in a sample. Isolating and detecting protein is used for many clinical and research processes. This can be a primary step before further manipulation in a research and development process, an initial capture of protein before structural analysis, or it can be a final detection step in a clinical laboratory as part of a disease diagnosis. According to latest analysis by Gen Consulting Company, the global protein assays market was USD 1,525 million in 2021 and is expected to reach USD 2,824 million in 2028 and register a CAGR of 9.2% during the forecast period, 2022-2028.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global protein assays market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the protein assays industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, end user, and region. The global market for protein assays can be segmented by type: bicinchoninic acid assay, Bradford assay, lowry protein assay, UV absorbance. Protein assays market is further segmented by end user: pharma and biotech companies, academic institutions, contract research organizations (CROs), others. Based on region, the protein assays market is segmented into: Asia Pacific, Europe, North America, Rest of the World (RoW). North America is estimated to account for the largest share of the global protein assays market.

By type:

bicinchoninic acid assay

Bradford assay

lowry protein assay

UV absorbance

By end user:

pharma and biotech companies

academic institutions

contract research organizations (CROs)

others

By region:

Asia Pacific

Europe

North America

Rest of the World (RoW)

The report explores the recent developments and profiles of key vendors in the Global Protein Assays Market, including Abcam plc, Bio-Rad Laboratories Inc., General Electric Company (GE), Geno Technology, Inc., Merck & Co., Inc., Novus Biologicals LLC, PerkinElmer, Inc., Promega Corporation, Thermo Fisher Scientific Inc., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global protein assays market.

To classify and forecast the global protein assays market based on type, end user, region.

To identify drivers and challenges for the global protein assays market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global protein assays market.

To identify and analyze the profile of leading players operating in the global protein assays market.

Why Choose This Report

Gain a reliable outlook of the global protein assays market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY TYPE

Bicinchoninic acid assay
Bradford assay
Lowry protein assay
UV absorbance

PART 6. MARKET BREAKDOWN BY END USER

Pharma and biotech companies
Academic institutions
Contract research organizations (CROs)
Others

PART 7. MARKET BREAKDOWN BY REGION

Asia Pacific

Europe

North America

Rest of the World (RoW)

PART 8. KEY COMPANIES

Abcam plc

Bio-Rad Laboratories Inc.

General Electric Company (GE)

Geno Technology, Inc.

Merck & Co., Inc.

Novus Biologicals LLC

PerkinElmer, Inc.

Promega Corporation

Thermo Fisher Scientific Inc.
