Abstracts

One of the primary benefits of rainscreen cladding is that it provides an extra layer of protection against water penetration, reducing the risk of decay, rot, and other forms of damage to the building's structure. By allowing ventilation and drainage, it also helps to minimize the risk of mold growth and other forms of moisture buildup. Rainscreen cladding is widely used in the construction industry, particularly for commercial and institutional buildings. It is considered an effective and efficient building envelope system that provides long-lasting protection against weathering and environmental damage. The global rainscreen cladding market is likely to register a CAGR of over 4.66% with an incremental growth of USD 3.8 billion during the forecast period 2023-2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global rainscreen cladding market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the raw material, application, and region. The global market for rainscreen cladding can be segmented by raw material: fiber cement, composite material, metal, high pressure laminates, terracotta, ceramics, wood, others. The terracotta segment held the largest share of the global rainscreen cladding market in 2022 and is anticipated to hold its share during the forecast period. Rainscreen cladding market is further segmented by application: residential, commercial, offices, institutional, industrial, others. Globally, the offices segment made up the largest share of the rainscreen cladding market. Based on region, the rainscreen cladding market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa),

Latin America. Europe was the largest contributor to the global rainscreen cladding market in 2022.

Market Segmentation

By raw material: fiber cement, composite material, metal, high pressure laminates, terracotta, ceramics, wood, others

By application: residential, commercial, offices, institutional, industrial, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides a detailed analysis of several leading rainscreen cladding market vendors that include Dow Inc., Everest Industries Ltd., Kingspan Insulation plc, OmniMax International, LLC., Rockwool A/S, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global rainscreen cladding market.

To classify and forecast the global rainscreen cladding market based on raw material, application, region.

To identify drivers and challenges for the global rainscreen cladding market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global rainscreen cladding market.

To identify and analyze the profile of leading players operating in the global rainscreen cladding market.

Why Choose This Report

Gain a reliable outlook of the global rainscreen cladding market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY RAW MATERIAL

Fiber cement
Composite material
Metal
High pressure laminates
Terracotta
Ceramics
Wood
Others

PART 6. MARKET BREAKDOWN BY APPLICATION

Residential
Commercial
Offices
Institutional
Industrial

Others

PART 7. MARKET BREAKDOWN BY REGION

North America

Europe

Asia-Pacific

MEA (Middle East and Africa)

Latin America

PART 8. KEY COMPANIES

Dow Inc.

Everest Industries Ltd.

Kingspan Insulation plc

OmniMax International, LLC.

Rockwool A/S
