Abstracts

Real-time locating systems (RTLS), also known as real-time tracking systems, refers to any system that accurately determines an item or person's location. RTLS is used across many industries with specific applications like employee tracking and high-value asset tracking. These applications can be found in manufacturing and mining industries but are most prominent in the healthcare industry. The global real-time location systems market is likely to register a CAGR of over 22.8% with an incremental growth of USD 14 billion during the forecast period 2022-2028.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global real-time location systems market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the real-time location systems industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the offering, technology, application, end user, and region. The global market for real-time location systems can be segmented by offering: hardware, software, services. The hardware segment captured the largest share of the market in 2021. Real-time location systems market is further segmented by technology: Bluetooth low energy (BLE), GPS, radio-frequency identification (RFID), ultra-wideband (UWB), Wi-Fi, others. Based on application, the real-time location systems market is segmented into: asset tracking and monitoring, access control and security, employee tracking, environmental monitoring, inventory management, workplace safety, others. In 2021, the asset tracking and monitoring segment made up the largest share of revenue generated by the real-time location systems market. On the basis of end user, the real-time location systems market also can be divided into: automotive, education,

government & defense, healthcare, manufacturing, oil & gas, mining, retail, transportation & logistics, others. Real-time location systems market by region is categorized into: Asia Pacific, Europe, North America, Rest of the World (RoW).

By offering:

hardware

software

services

By technology:

Bluetooth low energy (BLE)

GPS

radio-frequency identification (RFID)

ultra-wideband (UWB)

Wi-Fi

others

By application:

asset tracking and monitoring

access control and security

employee tracking

environmental monitoring

inventory management

workplace safety

others

By end user:

automotive

education

government & defense

healthcare

manufacturing

oil & gas, mining

retail

transportation & logistics

others

By region:

Asia Pacific

Europe

North America

Rest of the World (RoW)

The report also provides a detailed analysis of several leading real-time location

systems market vendors that include Avery Dennison Corp., CenTrak, Inc. (Halma plc), Cerner Corp., DecaWave Limited, Impinj Inc., Juniper Networks Inc., Midmark Corp., Redpine Signals, Inc., Savi Technology Inc., Sonitor Technologies AS, TeleTracking Technologies, Inc., Ubisense Group plc, Zebra Technologies Corporation, among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global real-time location systems market.

To classify and forecast the global real-time location systems market based on offering, technology, application, end user, region.

To identify drivers and challenges for the global real-time location systems market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global real-time location systems market.

To identify and analyze the profile of leading players operating in the global real-time location systems market.

Why Choose This Report

Gain a reliable outlook of the global real-time location systems market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description

Objectives of the study

Market segment

Years considered for the report

Currency

Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction

Drivers

Restraints

Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY OFFERING

Hardware

Software

Services

PART 6. MARKET BREAKDOWN BY TECHNOLOGY

Bluetooth low energy (BLE)

GPS

Radio-frequency identification (RFID)

Ultra-wideband (UWB)

Wi-Fi

Others

PART 7. MARKET BREAKDOWN BY APPLICATION

Asset tracking and monitoring

Access control and security

Employee tracking

Environmental monitoring

Inventory management

Workplace safety

Others

PART 8. MARKET BREAKDOWN BY END USER

Automotive

Education

Government & defense

Healthcare

Manufacturing

Oil & gas, mining

Retail

Transportation & logistics

Others

PART 9. MARKET BREAKDOWN BY REGION

Asia Pacific

Europe

North America

Rest of the World (RoW)

PART 10. KEY COMPANIES

Avery Dennison Corp.

CenTrak, Inc. (Halma plc)

Cerner Corp.

DecaWave Limited

Impinj Inc.

Juniper Networks Inc.

Midmark Corp.

Redpine Signals, Inc.

Savi Technology Inc.

Sonitor Technologies AS

TeleTracking Technologies, Inc.

Ubisense Group plc

Zebra Technologies Corporation
