Abstracts

Remote sensing is the process of detecting and monitoring the physical characteristics of an area by measuring its reflected and emitted radiation at a distance (typically from satellite or aircraft). The global remote sensing satellites market size is projected to grow by USD 4.7 billion from 2022 to 2028, registering a CAGR of 6.8 percent, according to a new report by Gen Consulting Company.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global remote sensing satellites market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the remote sensing satellites industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the application, end user, and region. The global market for remote sensing satellites can be segmented by application: earth observation (EO), mapping and navigation, meteorology. The EO segment is estimated to account for the largest share of the global remote sensing satellites market. Remote sensing satellites market is further segmented by end user: commercial, defense. The defense segment held the largest revenue share in 2021. Based on region, the remote sensing satellites market is segmented into: Asia Pacific, Europe, North America, Rest of the World (RoW). Globally, North America made up the largest share of the remote sensing satellites market.

Market Segmentation

By application: earth observation (EO), mapping and navigation, meteorology

By end user: commercial, defense

By region: Asia Pacific, Europe, North America, Rest of the World (RoW)

The report has also analysed the competitive landscape of the global remote sensing satellites market with some of the key players being Airbus SE, Ball Aerospace & Technologies Corp. (Ball Corporation), Environmental Systems Research Institute, Inc. (Esri), ImageSat International N.V. (ISI), Lockheed Martin Corporation, Maxar Technologies Inc., Mitsubishi Electric Corporation, Northrop Grumman Corporation, Planet Labs PBC, Satellite Imaging Corporation (SIC), Thales S.A., The Boeing Company, UrtheCast Corp., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

> To analyze and forecast the market size of the global remote sensing satellites market.

> To classify and forecast the global remote sensing satellites market based on application, end user, region.

> To identify drivers and challenges for the global remote sensing satellites market.

> To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global remote sensing satellites market.

> To identify and analyze the profile of leading players operating in the global remote sensing satellites market.

Why Choose This Report

Gain a reliable outlook of the global remote sensing satellites market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY APPLICATION

Earth observation (EO)
Mapping and navigation
Meteorology

PART 6. MARKET BREAKDOWN BY END USER

Commercial
Defense

PART 7. MARKET BREAKDOWN BY REGION

Asia Pacific
Europe
North America
Rest of the World (RoW)

PART 8. KEY COMPANIES

Airbus SE
Ball Aerospace & Technologies Corp. (Ball Corporation)
Environmental Systems Research Institute, Inc. (Esri)
ImageSat International N.V. (ISI)
Lockheed Martin Corporation
Maxar Technologies Inc.
Mitsubishi Electric Corporation
Northrop Grumman Corporation
Planet Labs PBC
Satellite Imaging Corporation (SIC)
Thales S.A.
The Boeing Company
UrtheCast Corp.
