

Global Single Use Bioprocessing Market 2022-2028

<https://marketpublishers.com/r/G49E25BD4A17EN.html>

Date: December 2022

Pages: 77

Price: US\$ 2,750.00 (Single User License)

ID: G49E25BD4A17EN

Abstracts

According to latest analysis by Gen Consulting Company, the global single use bioprocessing market is poised to grow by USD 17.3 billion during 2022-2028, progressing at a CAGR of 12.4% during the forecast period.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global single use bioprocessing market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the single use bioprocessing industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, workflow, end user, and region. The global market for single use bioprocessing can be segmented by product: pH sensor, oxygen sensor, pressure sensors, temperature sensors, conductivity sensors, flow meters & sensors, others. Among these, the oxygen sensor segment was accounted for the highest revenue generator in 2021. Single use bioprocessing market is further segmented by workflow: upstream, fermentation, downstream. The upstream segment is estimated to account for the largest share of the global single use bioprocessing market. Based on end user, the single use bioprocessing market is segmented into: biopharmaceutical company, OEMs, research institutes, others. The biopharmaceutical company segment held the largest share of the global single use bioprocessing market in 2021 and is anticipated to hold its share during the forecast period. On the basis of region, the single use bioprocessing market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. In 2021, North America made up the largest share of revenue generated by the single use bioprocessing market.

Market Segmentation

By product: pH sensor, oxygen sensor, pressure sensors, temperature sensors, conductivity sensors, flow meters & sensors, others

By workflow: upstream, fermentation, downstream

By end user: biopharmaceutical company, OEMs, research institutes, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report has also analysed the competitive landscape of the global single use bioprocessing market with some of the key players being Corning, Inc., Danaher Corporation, Entegris, Inc., Eppendorf AG, GE Healthcare, Kuhner AG, Merck KGaA, Sartorius AG, Thermo Fisher Scientific, Inc., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global single use bioprocessing market.

To classify and forecast the global single use bioprocessing market based on product, workflow, end user, region.

To identify drivers and challenges for the global single use bioprocessing market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global single use bioprocessing market.

To identify and analyze the profile of leading players operating in the global

single use bioprocessing market.

Why Choose This Report

Gain a reliable outlook of the global single use bioprocessing market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY PRODUCT

PH sensor
Oxygen sensor
Pressure sensors
Temperature sensors
Conductivity sensors
Flow meters & sensors
Others

PART 6. MARKET BREAKDOWN BY WORKFLOW

Upstream
Fermentation
Downstream

PART 7. MARKET BREAKDOWN BY END USER

Biopharmaceutical company
OEMs
Research institutes
Others

PART 8. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 9. KEY COMPANIES

Corning, Inc.
Danaher Corporation
Entegris, Inc.
Eppendorf AG
GE Healthcare
Kuhner AG
Merck KGaA
Sartorius AG
Thermo Fisher Scientific, Inc.
