

Global Single-use Bioprocessing Probes Sensors Market 2023

<https://marketpublishers.com/r/G42342D36116EN.html>

Date: September 2023

Pages: 92

Price: US\$ 2,950.00 (Single User License)

ID: G42342D36116EN

Abstracts

The global market for single-use bioprocessing probes and sensors was valued at USD 1.14 billion in 2022 and is projected to reach USD 2.58 billion by 2029, with a CAGR of 12.0%. These probes and sensors offer an effective alternative to traditional methods in biopharmaceutical development and manufacturing, especially in continuous bioprocessing. Single-use bioreactors and fermenters, utilizing disposable plastic bags in metal containers, are increasingly adopted in the biopharmaceutical industry. They provide benefits such as pre-sterilization, elimination of classified environments, reduced risk of cross-contamination, lower costs, increased efficiency, and greater flexibility. Vendors are developing advanced products, including non-invasive and smart probes and sensors, to meet demand and enhance functionality. The COVID-19 pandemic has further heightened the demand for single-use bioprocessing probes and sensors, particularly in vaccine, cell and gene therapy, and monoclonal antibody manufacturing. The vaccine segment is expected to have the highest CAGR due to the urgent need for vaccine development. Overall, the market is growing and presents opportunities for stakeholders in the biopharmaceutical industry.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global single-use bioprocessing probes sensors market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

Market Segmentation

The market is segmented based on various factors, including type of sensor, workflow, application, end-user, and region.

Product: conductivity sensors, flow meters and sensors, oxygen sensors, pH sensors, pressure sensors, temperature sensors, others

Workflow: downstream, upstream

Application: cell therapies, monoclonal antibodies, vaccines, others

End user: biopharmaceutical manufacturers, CMOs and CDMOs, research institutes

Segmentation by Geography

North America – US, Canada

Europe – Germany, France, UK, Italy, Spain, Switzerland

APAC - China, Japan, India, South Korea, Australia, Colombia

Latin America – Brazil, Mexico, Argentina

Middle East & Africa – South Africa, Saudi Arabia, Turkey, UAE

CMOs play a crucial role in the biopharmaceutical industry and attract significant investments. Market leaders possess financial resources, strong reputations, and a willingness to take risks. Dominant CMOs achieve scale and specialize in operations, offering high economic returns. pH sensors, commonly used in single-use bioprocessing, have the largest market share at 23.5%. The upstream segment generates the highest revenue of \$4.6 billion in 2022, fueled by the adoption of single-use bioreactors. Downstream processing, particularly affinity capture and purification, is intensive and costly. Limited use of single-use systems results in smaller market revenue. Efforts to expand single-use systems in downstream processing are expected to drive growth.

R&D investment in biopharmaceutical products promotes the adoption of single-use bioreactors, especially in North America and Europe. North America leads in revenue, with collaborations and key players like Avantor, High Purity New England, and Merck expanding the market. The growing demand and usage of single-use bioreactors drive market growth in North America and Europe. Latin America, the Middle East, and Africa offer growth opportunities. In the Asia-Pacific (APAC) region, high R&D spending drives the adoption of single-use bioprocessing technologies, projecting a 13.5% CAGR for the APAC market.

Competitive Landscape

The global single-use bioprocessing market is moderately competitive and offers significant growth opportunities for vendors. Dominant companies in this market include Thermo Fisher Scientific Inc., Sartorius AG, Danaher Corporation, and Merck KGaA. These companies are profiled in this report: ABER Instruments Ltd., Avantor, Inc., Broadley-James Corporation, CerCell A/S, Cole-Parmer Instrument Company (Antylia

Scientific), Compagnie de Saint-Gobain S.A., Danaher Corporation, Distek, Inc., Emerson Electric Co., ESI Technologies Ltd., Hamilton Company, High Purity New England, Inc., Levitronix GmbH, Liquidyne Process Technologies, Inc., Malema Engineering Corporation (PSG Dover), Merck KGaA, Mettler Toledo International Inc., Parker Hannifin Corporation, PreSens Precision Sensing GmbH, Sartorius AG, SONOTEC GmbH, Thermo Fisher Scientific Inc., among others.

Scope of the Report

To analyze and forecast the market size of the global single-use bioprocessing probes sensors market.

To classify and forecast the global single-use bioprocessing probes sensors market based on product, workflow, application, end user, region.

To identify drivers and challenges for the global single-use bioprocessing probes sensors market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global single-use bioprocessing probes sensors market.

To identify and analyze the profile of leading players operating in the global single-use bioprocessing probes sensors market.

Why Choose This Report

Gain a reliable outlook of the global single-use bioprocessing probes sensors market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

- 1.1 Description
- 1.2 Objectives of The Study
- 1.3 Market Segment
- 1.4 Years Considered for The Report
- 1.5 Currency
- 1.6 Key Target Audience

PART 2. RESEARCH METHODOLOGY

- 2.1 Primary Research
- 2.2 Secondary Research

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

- 4.1 Introduction
- 4.2 Drivers
- 4.3 Restraints

PART 5. GLOBAL SINGLE-USE BIOPROCESSING PROBES SENSORS MARKET BY PRODUCT

- 5.1 Conductivity sensors
- 5.2 Flow meters and sensors
- 5.3 Oxygen sensors
- 5.4 PH sensors
- 5.5 Pressure sensors
- 5.6 Temperature sensors
- 5.7 Others

PART 6. GLOBAL SINGLE-USE BIOPROCESSING PROBES SENSORS MARKET BY WORKFLOW

- 6.1 Downstream

6.2 Upstream

PART 7. GLOBAL SINGLE-USE BIOPROCESSING PROBES SENSORS MARKET BY APPLICATION

7.1 Cell therapies

7.2 Monoclonal antibodies

7.3 Vaccines

7.4 Others

PART 8. GLOBAL SINGLE-USE BIOPROCESSING PROBES SENSORS MARKET BY END USER

8.1 Biopharmaceutical manufacturers

8.2 CMOs and CDMOs

8.3 Research institutes

PART 9. GLOBAL SINGLE-USE BIOPROCESSING PROBES SENSORS MARKET BY REGION

9.1 North America

9.2 Europe

9.3 Asia-Pacific

9.4 MEA (Middle East and Africa)

9.5 Latin America

PART 10. COMPANY PROFILES

10.1 ABER Instruments Ltd.

10.2 Avantor, Inc.

10.3 Broadley-James Corporation

10.4 CerCell A/S

10.5 Cole-Parmer Instrument Company (Antylia Scientific)

10.6 Compagnie de Saint-Gobain S.A.

10.7 Danaher Corporation

10.8 Distek, Inc.

10.9 Emerson Electric Co.

10.10 ESI Technologies Ltd.

10.11 Hamilton Company

- 10.12 High Purity New England, Inc.
 - 10.13 Levitronix GmbH
 - 10.14 Liquidyne Process Technologies, Inc.
 - 10.15 Malema Engineering Corporation (PSG Dover)
 - 10.16 Merck KGaA
 - 10.17 Mettler Toledo International Inc.
 - 10.18 Parker Hannifin Corporation
 - 10.19 PreSens Precision Sensing GmbH
 - 10.20 Sartorius AG
 - 10.21 SONOTEC GmbH
 - 10.22 Thermo Fisher Scientific Inc.
- DISCLAIMER

I would like to order

Product name: Global Single-use Bioprocessing Probes Sensors Market 2023

Product link: <https://marketpublishers.com/r/G42342D36116EN.html>

Price: US\$ 2,950.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/G42342D36116EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
