## Abstracts

The global sodium-ion battery market size is projected to grow by USD 360.0 million from 2022 to 2028, registering a CAGR of 14.3 percent, according to a new report by Gen Consulting Company.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global sodium-ion battery market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the sodium-ion battery industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the application, and region. The global market for sodium-ion battery can be segmented by application: stationary energy storage, transportation, others. The stationary energy storage segment is estimated to account for the largest share of the global sodium-ion battery market. Sodium-ion battery market is further segmented by region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. Europe held the largest revenue share in 2021.

### Market Segmentation

By application: stationary energy storage, transportation, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report has also analysed the competitive landscape of the global sodium-ion battery market with some of the key players being Altris AB, AMTE Power plc, Contemporary

Amperex Technology Co., Limited (CATL), Faradion Limited, Natron Energy Inc., NGK Insulators Ltd., TIAMAT SAS, among others.

### Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

### Scope of the Report

To analyze and forecast the market size of the global sodium-ion battery market.

To classify and forecast the global sodium-ion battery market based on application, region.

To identify drivers and challenges for the global sodium-ion battery market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global sodium-ion battery market.

To identify and analyze the profile of leading players operating in the global sodium-ion battery market.

### Why Choose This Report

Gain a reliable outlook of the global sodium-ion battery market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
