## Abstracts

Solid grade thermoplastic acrylic resin is a type of polymer used in various industrial applications, including coatings, adhesives, and plastics. It is a high-performance resin that offers excellent adhesion, chemical resistance, and weatherability, making it suitable for use in harsh environments. The global solid grade thermoplastic acrylic resin market is anticipated to increase by 135.1 thousand tons till 2029 at an average annual growth of 4.47 percent as per the latest market estimates. The market for solid grade thermoplastic acrylic resin is driven by factors such as the growing demand for high-performance coatings and adhesives, the increasing use of plastic products in various industries, and the development of new and advanced technologies for resin production and processing. The market for solid grade thermoplastic acrylic resin is driven by factors such as the growing demand for high-performance coatings and adhesives, the increasing use of plastic products in various industries, and the development of new and advanced technologies for resin production and processing.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global solid grade thermoplastic acrylic resin market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the application, and region. The global market for solid grade thermoplastic acrylic resin can be segmented by application: acrylic composite resins, paints and coatings, others. The paints and coatings segment was the largest contributor to the global solid grade thermoplastic acrylic resin market in 2022. Solid

grade thermoplastic acrylic resin market is further segmented by region: North America, Europe, Asia-Pacific, Rest of the World (RoW). According to the research, Asia-Pacific had the largest share in the global solid grade thermoplastic acrylic resin market.

The paints and coatings market is further segmented into coil coatings, industrial coatings, architectural coatings, transportation coatings, others. The industrial coatings segment is estimated to account for the largest share of the global solid grade thermoplastic acrylic resin market.

### Market Segmentation

By application: acrylic composite resins, paints and coatings, others

By region: North America, Europe, Asia-Pacific, Rest of the World (RoW)

The report also provides analysis of the key companies of the industry and their detailed company profiles including Dow Inc., Mitsubishi Chemical Corporation, Trinseo, Chansieh Enterprises Co., Ltd., LG MMA Corporation, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

### Scope of the Report

To analyze and forecast the market size of the global solid grade thermoplastic acrylic resin market.

To classify and forecast the global solid grade thermoplastic acrylic resin market based on application, region.

To identify drivers and challenges for the global solid grade thermoplastic acrylic resin market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global solid grade thermoplastic acrylic resin market.

To identify and analyze the profile of leading players operating in the global solid grade thermoplastic acrylic resin market.

### Why Choose This Report

Gain a reliable outlook of the global solid grade thermoplastic acrylic resin market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.  
Strategy consulting and research support for three months.  
Print authentication provided for the single-user license.
