## Abstracts

Sub-orbital testing services refer to a range of services that involve conducting scientific experiments and testing equipment in sub-orbital space, which is the region of space that lies just below the boundary of outer space. Sub-orbital space is typically defined as the region between 50 and 100 kilometers above the Earth's surface. Sub-orbital testing services can be used for a wide range of applications, from testing new technologies and materials to conducting research on the upper atmosphere and space environment. The global sub-orbital testing services market size is projected to grow by USD 15.0 million from 2023 to 2029, registering a CAGR of 1.92 percent, according to the latest market data.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global sub-orbital testing services market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the payload capacity, application, end user, and region. The global market for sub-orbital testing services can be segmented by payload capacity: 1-50 Kg, 51-200 Kg, 201-500 Kg, 501 Kg and above. Among these, the 501 Kg and above segment was accounted for the highest revenue generator in 2022. Sub-orbital testing services market is further segmented by application: automated, human-tended. The automated segment is estimated to account for the largest share of the global sub-orbital testing services market. Based on end user, the sub-orbital testing services market is segmented into: research institutions, government, commercial, defense. The research institutions segment held the largest share of the global sub-orbital testing services market in 2022 and is anticipated to hold its share during the forecast period.

On the basis of region, the sub-orbital testing services market also can be divided into: Asia-Pacific (ex. China), Europe, North America, China, RoW (Rest of World). In 2022, North America made up the largest share of revenue generated by the sub-orbital testing services market.

### Market Segmentation

By payload capacity: 1-50 Kg, 51-200 Kg, 201-500 Kg, 501 Kg and above

By application: automated, human-tended

By end user: research institutions, government, commercial, defense

By region: Asia-Pacific (ex. China), Europe, North America, China, RoW (Rest of World)

The report has also analysed the competitive landscape of the global sub-orbital testing services market with some of the key players being Virgin Galactic Holdings, Inc., Novespace, Near Space Corporation, Blue Origin, LLC, Aerostar International, Inc., Exos Aerospace Systems & Technologies, Inc., UP Aerospace, Inc., Interstellar Technologies Inc., PD AeroSpace, Ltd., Payload Aerospace S.L. (PLD Space), Skyrora Limited, World View Enterprises, Inc., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

### Scope of the Report

To analyze and forecast the market size of the global sub-orbital testing services market.

To classify and forecast the global sub-orbital testing services market based on payload capacity, application, end user, region.

To identify drivers and challenges for the global sub-orbital testing services market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global sub-orbital testing services market.

To identify and analyze the profile of leading players operating in the global sub-orbital testing services market.

### Why Choose This Report

Gain a reliable outlook of the global sub-orbital testing services market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

## Contents

### **PART 1. INTRODUCTION**

Report description  
Objectives of the study  
Market segment  
Years considered for the report  
Currency  
Key target audience

### **PART 2. METHODOLOGY**

### **PART 3. EXECUTIVE SUMMARY**

### **PART 4. MARKET OVERVIEW**

Introduction  
Drivers  
Restraints

### **PART 5. MARKET BREAKDOWN BY PAYLOAD CAPACITY**

1-50 Kg  
51-200 Kg  
201-500 Kg  
501 Kg and above

### **PART 6. MARKET BREAKDOWN BY APPLICATION**

Automated  
Human-tended

### **PART 7. MARKET BREAKDOWN BY END USER**

Research institutions  
Government  
Commercial  
Defense

## **PART 8. MARKET BREAKDOWN BY REGION**

Asia-Pacific (ex. China)

Europe

North America

China

RoW (Rest of World)

## **PART 9. KEY COMPANIES**

Virgin Galactic Holdings, Inc.

Novespace

Near Space Corporation

Blue Origin, LLC

Aerostar International, Inc.

Exos Aerospace Systems & Technologies, Inc.

UP Aerospace, Inc.

Interstellar Technologies Inc.

PD AeroSpace, Ltd.

Payload Aerospace S.L. (PLD Space)

Skyrora Limited

World View Enterprises, Inc.

DISCLAIMER

## I would like to order

Product name: Global Sub-Orbital Testing Services Market 2023-2029

Product link: <https://marketpublishers.com/r/GAB9B646DCA5EN.html>

Price: US\$ 3,350.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/GAB9B646DCA5EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
