## Abstracts

The global supersonic and hypersonic aircraft market is anticipated to increase by USD 0.9 billion till 2028 at an average annual growth of 3.5 percent as per the latest report by Gen Consulting Company.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global supersonic and hypersonic aircraft market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the supersonic and hypersonic aircraft industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the subsystem, speed regime, application, and region. The global market for supersonic and hypersonic aircraft can be segmented by subsystem: airframe, propulsion, avionic, control system, electrical system, weapon system, undercarriage, others. According to the research, the airframe segment had the largest share in the global supersonic and hypersonic aircraft market. Supersonic and hypersonic aircraft market is further segmented by speed regime: supersonic aircraft, hypersonic aircraft. In 2021, the supersonic aircraft segment made up the largest share of revenue generated by the supersonic and hypersonic aircraft market. Based on application, the supersonic and hypersonic aircraft market is segmented into: commercial, military. Among these, the military segment was accounted for the highest revenue generator in 2021. On the basis of region, the supersonic and hypersonic aircraft market also can be divided into: North America, Europe, Asia-Pacific. Europe captured the largest share of the market in 2021.

## Market Segmentation

By subsystem: airframe, propulsion, avionic, control system, electrical system, weapon system, undercarriage, others

By speed regime: supersonic aircraft, hypersonic aircraft

By application: commercial, military

By region: North America, Europe, Asia-Pacific

The report also provides analysis of the key companies of the industry and their detailed company profiles including Aviation Industry Corporation of China, BAE Systems plc, Dassault Aviation S.A., Hindustan Aeronautics Limited, Lockheed Martin Corporation, Northrop Grumman Corporation, The Boeing Company, among others.

## Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

## Scope of the Report

To analyze and forecast the market size of the global supersonic and hypersonic aircraft market.

To classify and forecast the global supersonic and hypersonic aircraft market based on subsystem, speed regime, application, region.

To identify drivers and challenges for the global supersonic and hypersonic aircraft market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global supersonic and hypersonic aircraft market.

To identify and analyze the profile of leading players operating in the global

supersonic and hypersonic aircraft market.

### Why Choose This Report

Gain a reliable outlook of the global supersonic and hypersonic aircraft market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
