Abstracts

The global surgical dressings market is expected to increase by USD 1.8 billion, at a compound annual growth rate (CAGR) of 5.4% from 2023 to 2029, according to the latest edition of the Global Surgical Dressings Market Report.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global surgical dressings market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, application, end user, and region. The global market for surgical dressings can be segmented by product: primary dressings, secondary dressing, others. In 2022, the primary dressings segment made up the largest share of revenue generated by the surgical dressings market. Surgical dressings market is further segmented by application: burns, cardiovascular surgeries, diabetes surgeries, transplant sites, ulcers, others. The cardiovascular surgeries segment was the largest contributor to the global surgical dressings market in 2022. Based on end user, the surgical dressings market is segmented into: ambulatory centers, home care settings, hospitals and clinics, others. The hospitals and clinics segment is estimated to account for the largest share of the global surgical dressings market. On the basis of region, the surgical dressings market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. North America held the largest share of the global surgical dressings market in 2022 and is anticipated to hold its share during the forecast period.

Market Segmentation

By product: primary dressings, secondary dressing, others

By application: burns, cardiovascular surgeries, diabetes surgeries, transplant sites, ulcers, others

By end user: ambulatory centers, home care settings, hospitals and clinics, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America
