Abstracts

Thermal spraying is a technology which improves or restores the surface of a solid material. The process can be used to apply coatings to a wide range of materials and components, to provide resistance to wear, erosion, cavitation, corrosion, abrasion or heat. Thermal spraying is also used to provide electrical conductivity or insulation, lubricity, high or low friction, sacrificial wear, chemical resistance and many other desirable surface properties. The global thermal spray market is projected to rise by USD 3.7 billion by 2028, according to a new report by Gen Consulting Company. It is anticipated to expand at a CAGR of 4.6 percent during the forecast period.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global thermal spray market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the thermal spray industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, process, end user, and region. The global market for thermal spray can be segmented by product: thermal spray coatings, thermal spray equipment, thermal spray materials. The thermal spray coatings segment was the largest contributor to the global thermal spray market in 2021. Thermal spray market is further segmented by process: combustion flame, electric energy. Based on end user, the thermal spray market is segmented into: aerospace, automotive, electrical & electronics, energy & power, healthcare, industrial, oil & gas, others. On the basis of region, the thermal spray market also can be divided into: Asia Pacific, Europe, North America, Rest of the World (RoW).

The thermal spray materials market is further segmented into coating materials,

supplementary materials. The coating materials segment is estimated to account for the largest share of the global thermal spray market. Furthermore, the thermal spray equipment market has been categorized into thermal spray coating systems, dust collection equipment, spray guns and nozzles, feeder equipment, spare parts, noise-reducing enclosures, others. The spray guns and nozzles segment held the largest share of the global thermal spray market in 2021 and is anticipated to hold its share during the forecast period. The thermal spray coatings market is further divided into detonation gun spraying, flame spray, high velocity oxygen fuel (HVOF), plasma spray, plasma transferred arc, spray fusing, wire arc. In 2021, the flame spray segment made up the largest share of revenue generated by the thermal spray market.

Market Segmentation

By product: thermal spray coatings, thermal spray equipment, thermal spray materials

By process: combustion flame, electric energy

By end user: aerospace, automotive, electrical & electronics, energy & power, healthcare, industrial, oil & gas, others

By region: Asia Pacific, Europe, North America, Rest of the World (RoW)

The report explores the recent developments and profiles of key vendors in the Global Thermal Spray Market, including Aimtek, Inc., Alsher APM LLC, AMETEK, Inc., ASB Industries, Inc., Bodycote plc, BryCoat Inc., C&M Technologies GmbH, Castolin Eutectic GmbH, CenterLine (Windsor) Limited, Compagnie de Saint-Gobain S.A., F.W. Gartner Thermal Spraying, Ltd. (Curtiss-Wright Corporation), Fisher-Barton Inc., Flame Spray Coating Company, Global Tungsten & Powders Corp., H.C. Starck GmbH, HAI Inc., Hoganas AB, Hunter Chemical LLC, Kennametal, Inc., LSN Diffusion Limited, Metallisation Limited, OC Oerlikon Management AG, Polymet Corporation, Powder Alloy Corporation, Praxair Surface Technologies, Inc. (Linde plc), Sandvik AB, The Fisher Barton Group (Thermal Spray Technologies), Thermion Inc., Tocalo Co. Ltd., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering

2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global thermal spray market.

To classify and forecast the global thermal spray market based on product, process, end user, region.

To identify drivers and challenges for the global thermal spray market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global thermal spray market.

To identify and analyze the profile of leading players operating in the global thermal spray market.

Why Choose This Report

Gain a reliable outlook of the global thermal spray market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY PRODUCT

Thermal spray coatings
Thermal spray equipment
Thermal spray materials

PART 6. MARKET BREAKDOWN BY PROCESS

Combustion flame
Electric energy

PART 7. MARKET BREAKDOWN BY END USER

Aerospace
Automotive
Electrical & electronics
Energy & power

Healthcare
Industrial
Oil & gas
Others

PART 8. MARKET BREAKDOWN BY REGION

Asia Pacific
Europe
North America
Rest of the World (RoW)

PART 9. KEY COMPANIES

Aimtek, Inc.
Alsher APM LLC
AMETEK, Inc.
ASB Industries, Inc.
Bodycote plc
BryCoat Inc.
C&M Technologies GmbH
Castolin Eutectic GmbH
CenterLine (Windsor) Limited
Compagnie de Saint-Gobain S.A.
F.W. Gartner Thermal Spraying, Ltd. (Curtiss-Wright Corporation)
Fisher-Barton Inc.
Flame Spray Coating Company
Global Tungsten & Powders Corp.
H.C. Starck GmbH
HAI Inc.
Hoganas AB
Hunter Chemical LLC
Kennametal, Inc.
LSN Diffusion Limited
Metallisation Limited
OC Oerlikon Management AG
Polymet Corporation
Powder Alloy Corporation
Praxair Surface Technologies, Inc. (Linde plc)

Sandvik AB

The Fisher Barton Group (Thermal Spray Technologies)

Thermion Inc.

Tocalo Co. Ltd.
