Abstracts

The global thermoplastic polyester elastomer market is projected to rise by 37.0 thousand tons by 2028, according to a new report by Gen Consulting Company. It is anticipated to expand at a CAGR of 4.3 percent during the forecast period.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global thermoplastic polyester elastomer market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the thermoplastic polyester elastomer industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, end user, and region. The global market for thermoplastic polyester elastomer can be segmented by type: injection molding grade, extrusion grade, others. In 2021, the injection molding grade segment made up the largest share of the thermoplastic polyester elastomer market. Thermoplastic polyester elastomer market is further segmented by end user: automotive, medical, manufacturing, electrical and electronics, consumer goods, others. The automotive segment was the largest contributor to the global thermoplastic polyester elastomer market in 2021. Based on region, the thermoplastic polyester elastomer market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. Asia-Pacific is estimated to account for the largest share of the global thermoplastic polyester elastomer market.

Market Segmentation

By type: injection molding grade, extrusion grade, others

By end user: automotive, medical, manufacturing, electrical and electronics, consumer goods, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report explores the recent developments and profiles of key vendors in the Global Thermoplastic Polyester Elastomer Market, including Celanese Corporation, Chang Chun Group, Kolon Plastic INC., Koninklijke DSM N.V., LG Chem Ltd., Mitsubishi Chemical Corporation, Radici Partecipazioni S.p.A., SK Chemicals Co., Ltd., Toyobo Co., Ltd., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global thermoplastic polyester elastomer market.

To classify and forecast the global thermoplastic polyester elastomer market based on type, end user, region.

To identify drivers and challenges for the global thermoplastic polyester elastomer market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global thermoplastic polyester elastomer market.

To identify and analyze the profile of leading players operating in the global thermoplastic polyester elastomer market.

Why Choose This Report

Gain a reliable outlook of the global thermoplastic polyester elastomer market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
