Abstracts

A separator is a device used to separate a well stream mixture of oil/gas/water into its constituents. Two-stage separators extract liquids from natural gas. They are available in vertical, horizontal, and spherical configurations. These devices are extensively used in onshore or offshore oil and gas facilities and petrochemical applications. According to the latest estimates, the global two-phase separators for oil and gas market size is expected to increase from USD 1,452 million in 2022 to USD 2,198 million by 2029, garnering a CAGR of 6.1% over the evaluated period.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global two-phase separators for oil and gas market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the vessel orientation, application, and region. The global market for two-phase separators for oil and gas can be segmented by vessel orientation: horizontal separator, spherical separator, vertical separator. In 2022, the horizontal separator segment made up the largest share of revenue generated by the two-phase separators for oil and gas market. Two-phase separators for oil and gas market is further segmented by application: downstream, upstream. The downstream segment was the largest contributor to the global two-phase separators for oil and gas market in 2022. Based on region, the two-phase separators for oil and gas market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. Asia-Pacific is estimated to account for the largest share of the global

two-phase separators for oil and gas market.

Market Segmentation

By vessel orientation: horizontal separator, spherical separator, vertical separator

By application: downstream, upstream

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides analysis of the key companies of the industry and their detailed company profiles including Ager GmbH (ERGIL), Alfa Laval AB, Exterran Corporation, GEA Group AG, Halliburton Company, KIRK Process Solutions Limited, Pentair plc, Schlumberger Limited (SLB), Sulzer Ltd., Tech Fab, Inc., TechnipFMC plc, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global two-phase separators for oil and gas market.

To classify and forecast the global two-phase separators for oil and gas market based on vessel orientation, application, region.

To identify drivers and challenges for the global two-phase separators for oil and gas market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global two-phase separators for oil and gas market.

To identify and analyze the profile of leading players operating in the global two-phase separators for oil and gas market.

Why Choose This Report

Gain a reliable outlook of the global two-phase separators for oil and gas market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY VESSEL ORIENTATION

Horizontal separator
Spherical separator
Vertical separator

PART 6. MARKET BREAKDOWN BY APPLICATION

Downstream
Upstream

PART 7. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 8. KEY COMPANIES

Aager GmbH (ERGIL)

Alfa Laval AB

Exterran Corporation

GEA Group AG

Halliburton Company

KIRK Process Solutions Limited

Pentair plc

Schlumberger Limited (SLB)

Sulzer Ltd.

Tech Fab, Inc.

TechnipFMC plc
