Abstracts

A picture archiving communication system, or PACS for short, is a technology that captures, stores, arranges, archives, backs up, and retrieves medical images. It primarily serves the needs of radiology but also can be helpful for cardiology, ophthalmology, oncology, and other departments. A vendor neutral archive (VNA) appeared as an application for standardizing medical images and storing them in a format compatible with any PACS, no matter the provider. The global vna and pacs market is expected to increase by USD 1.3 billion, at a compound annual growth rate (CAGR) of 5.5% from 2022 to 2028, according to the latest edition of the Global VNA and PACS Market Report.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global vna and pacs market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the vna and pacs industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the imaging modality, type, mode, usage model, and region. The global market for vna and pacs can be segmented by imaging modality: angiography, mammography, computed tomography, magnetic resonance imaging, ultrasound, others. Among these, the angiography segment was accounted for the highest revenue generator in 2021. Vna and pacs market is further segmented by type: PACS, VNA software. The PACS segment is estimated to account for the largest share of the global vna and pacs market. Based on mode, the vna and pacs market is segmented into: on-site (premise), hybrid, cloud-hosted. The on-site (premise) segment

held the largest share of the global vna and pacs market in 2021 and is anticipated to hold its share during the forecast period. On the basis of usage model, the vna and pacs market also can be divided into: single department, multiple department, multiple sites. In 2021, the multiple department segment made up the largest share of revenue generated by the vna and pacs market. Vna and pacs market by region is categorized into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

Market Segmentation

By imaging modality: angiography, mammography, computed tomography, magnetic resonance imaging, ultrasound, others

By type: PACS, VNA software

By mode: on-site (premise), hybrid, cloud-hosted

By usage model: single department, multiple department, multiple sites

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The market research report covers the analysis of key stake holders of the global vna and pacs market. Some of the leading players profiled in the report include Agfa Healthcare NV, Dell Technologies Inc., Fujifilm Holdings Corporation, GE Healthcare, IBM Corporation, Koninklijke Philips NV, Lexmark International Inc., Mckesson Corporation, Siemens Healthineers AG, among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global vna and pacs market.

To classify and forecast the global vna and pacs market based on imaging modality, type, mode, usage model, region.

To identify drivers and challenges for the global vna and pacs market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global vna and pacs market.

To identify and analyze the profile of leading players operating in the global vna and pacs market.

Why Choose This Report

Gain a reliable outlook of the global vna and pacs market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY IMAGING MODALITY

Angiography
Mammography
Computed tomography
Magnetic resonance imaging
Ultrasound
Others

PART 6. MARKET BREAKDOWN BY TYPE

PACS
VNA software

PART 7. MARKET BREAKDOWN BY MODE

On-site (premise)

Hybrid
Cloud-hosted

PART 8. MARKET BREAKDOWN BY USAGE MODEL

Single department
Multiple department
Multiple sites

PART 9. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 10. KEY COMPANIES

Agfa Healthcare NV
Dell Technologies Inc.
Fujifilm Holdings Corporation
GE Healthcare
IBM Corporation
Koninklijke Philips NV
Lexmark International Inc.
Mckesson Corporation
Siemens Healthineers AG
