Abstracts

Welded plate and block heat exchangers are types of heat exchangers that use small plates or blocks of metal to transfer heat between two fluids. These heat exchangers are commonly used in industrial applications where there is a need to transfer large amounts of heat quickly and efficiently. The global welded plate and block heat exchangers market was valued at USD 1,037.0 million in 2022 to USD 1,555.2 million by 2029, progressing at a CAGR of 5.96% from 2023 to 2029, according to the latest market study results.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global welded plate and block heat exchangers market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the end user, and region. The global market for welded plate and block heat exchangers can be segmented by end user: chemical, food and beverages, HVAC, petrochemicals, power, paper, others. Among these, the HVAC segment was accounted for the highest revenue generator in 2022. Welded plate and block heat exchangers market is further segmented by region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. Asia-Pacific is estimated to account for the largest share of the global welded plate and block heat exchangers market.

Market Segmentation

By end user: chemical, food and beverages, HVAC, petrochemicals, power, paper, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report has also analysed the competitive landscape of the global welded plate and block heat exchangers market with some of the key players being Alfa Laval AB, API Heat Transfer ThermaSys Corporation, Danfoss A/S, Kelvion Holding GmbH, SPX Flow, Inc., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global welded plate and block heat exchangers market.

To classify and forecast the global welded plate and block heat exchangers market based on end user, region.

To identify drivers and challenges for the global welded plate and block heat exchangers market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global welded plate and block heat exchangers market.

To identify and analyze the profile of leading players operating in the global welded plate and block heat exchangers market.

Why Choose This Report

Gain a reliable outlook of the global welded plate and block heat exchangers market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY END USER

Chemical
Food and beverages
HVAC
Petrochemicals
Power
Paper
Others

PART 6. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 7. KEY COMPANIES

Alfa Laval AB
API Heat Transfer ThermaSys Corporation
Danfoss A/S
Kelvion Holding GmbH
SPX Flow, Inc.

DISCLAIMER

I would like to order

Product name: Global Welded Plate and Block Heat Exchangers Market 2023-2029

Product link: <https://marketpublishers.com/r/GF9F30C9CF87EN.html>

Price: US\$ 2,050.00 (Single User License / Electronic Delivery)
