## Abstracts

A wet scrubber is a type of pollution control equipment that is used to remove pollutants and particles from industrial exhaust gases before they are released into the environment. It works by spraying a mist of water or other liquid into the exhaust gas stream to capture and remove pollutants. Wet scrubbers are commonly used in industrial processes, such as steel mills, chemical processing plants, and power plants, where there is a high volume of exhaust gas emissions. They are designed to remove a wide range of pollutants, including acidic gases, particulate matter, and toxic chemicals. According to latest analysis, the global wet scrubber market was USD 1,209.0 million in 2022 and is expected to reach USD 1,981.1 million in 2029 and register a CAGR of 7.31% during the forecast period, 2023-2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global wet scrubber market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, end user, and region. The global market for wet scrubber can be segmented by product: packed bed scrubber, venturi scrubber, spray scrubber, others. The packed bed scrubber segment was the largest contributor to the global wet scrubber market in 2022. Wet scrubber market is further segmented by end user: power generation, chemical, cement, refinery and petrochemicals, pulp & paper, others. According to the research, the power generation segment had the largest share in the global wet scrubber market. Based on region, the wet scrubber market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. Asia-Pacific held the largest revenue share in 2022.

## Market Segmentation

By product: packed bed scrubber, venturi scrubber, spray scrubber, others

By end user: power generation, chemical, cement, refinery and petrochemicals, pulp & paper, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report explores the recent developments and profiles of key vendors in the Global Wet Scrubber Market, including Alfa Laval AB, Babcock & Wilcox Enterprises, Inc., CECO Environmental Corp., DuPont de Nemours, Inc., Evoqua Water Technologies LLC, Fuji Electric Co., Ltd., GEA Group AG, Hamon & CIE SA, Hitachi Zosen Inova AG, W?rtsil? Oyj Abp, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.
