Abstracts

Zero liquid discharge (ZLD) is an engineering approach to water treatment where all water is recovered and contaminants are reduced to solid waste. According to the latest research, the global zero liquid discharge system market is poised to grow by USD 3.9 billion during 2023-2029, progressing at a CAGR of 7.8% during the forecast period.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global zero liquid discharge system market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the technology, process, end user, and region. The global market for zero liquid discharge system can be segmented by technology: membrane based, thermal based. Among these, the thermal based segment was accounted for the highest revenue generator in 2022. Zero liquid discharge system market is further segmented by process: pretreatment, filtration, evaporation & crystallization, salt recovery. The pretreatment segment is estimated to account for the largest share of the global zero liquid discharge system market. Based on end user, the zero liquid discharge system market is segmented into: chemicals & petrochemicals, energy & power, food and beverages, pharmaceuticals, textiles, others. The energy & power segment held the largest share of the global zero liquid discharge system market in 2022 and is anticipated to hold its share during the forecast period. On the basis of region, the zero liquid discharge system market also can be divided into: Asia-Pacific, Europe, North America, Rest of the World (RoW). In 2022, Asia-Pacific made up the

largest share of revenue generated by the zero liquid discharge system market.

Market Segmentation

By technology: membrane based, thermal based

By process: pretreatment, filtration, evaporation & crystallization, salt recovery

By end user: chemicals & petrochemicals, energy & power, food and beverages, pharmaceuticals, textiles, others

By region: Asia-Pacific, Europe, North America, Rest of the World (RoW)

The report has also analysed the competitive landscape of the global zero liquid discharge system market with some of the key players being 3V Green Eagle SpA, Alfa Laval Corporate AB, Aquatech International Corporation, GEA Group AG, H2O GmbH, Saltworks Technologies Inc., Suez SA, Veolia Environnement S.A., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global zero liquid discharge system market.

To classify and forecast the global zero liquid discharge system market based on technology, process, end user, region.

To identify drivers and challenges for the global zero liquid discharge system market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global zero liquid discharge system market.

To identify and analyze the profile of leading players operating in the global zero liquid discharge system market.

Why Choose This Report

Gain a reliable outlook of the global zero liquid discharge system market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY TECHNOLOGY

Membrane based
Thermal based

PART 6. MARKET BREAKDOWN BY PROCESS

Pretreatment
Filtration
Evaporation & crystallization
Salt recovery

PART 7. MARKET BREAKDOWN BY END USER

Chemicals & petrochemicals
Energy & power
Food and beverages
Pharmaceuticals

Textiles
Others

PART 8. MARKET BREAKDOWN BY REGION

Asia-Pacific
Europe
North America
Rest of the World (RoW)

PART 9. KEY COMPANIES

3V Green Eagle SpA
Alfa Laval Corporate AB
Aquatech International Corporation
GEA Group AG
H2O GmbH
Saltworks Technologies Inc.
Suez SA
Veolia Environnement S.A.
DISCLAIMER

I would like to order

Product name: Global Zero Liquid Discharge System Market 2023-2029

Product link: <https://marketpublishers.com/r/G6D410ADE6D0EN.html>

Price: US\$ 3,350.00 (Single User License / Electronic Delivery)
