Abstracts

The green data center market in Latin America is anticipated to increase by USD 394.1 million till 2028 at an average annual growth of 9.8 percent as per the latest report by Gen Consulting Company.

This industry report offers market estimates of the Latin America market, followed by a detailed analysis of the infrastructure type. The Latin America market data on green data center can be segmented by infrastructure type: electrical infrastructure, general construction, mechanical infrastructure.

The electrical infrastructure market is further segmented into generators, power distribution units (PDUs), transfer switches & switchgears, uninterruptible power supply (UPS) systems, others. Gen Consulting Company research indicates that the UPS segment occupied the largest share of this market in 2021 and is expected to draw the highest demand in coming years. Furthermore, the mechanical infrastructure market has been categorized into cooling systems, racks, others. In Latin America, the cooling systems segment made up the largest share of the green data center market. The general construction market is further divided into core & shell development, data center infrastructure management (DCIM)/building management systems (BMS), engineering & building design, fire detection & suppression, installation & commissioning services, physical security.

The Latin America green data center market is highly competitive. The competitive landscape of the industry has also been examined along with the profiles of the key players Alphabet Inc., Amazon Web Services Inc., AVA Telecom Ltd., Digital Realty Trust Inc., Equinix Inc., HostDime Global Corp., Huawei Technologies Co. Ltd., Microsoft Corporation, Oracle Corporation.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive coverage of the market across different market segments, the report is a valuable asset for the existing players, new entrants and the future investors.
