Abstracts

Indoor Air Quality (IAQ) refers to the air quality within and around buildings and structures, especially as it relates to the health and comfort of building occupants. Poor indoor air quality has been linked to sick building syndrome, reduced productivity, and impaired learning in schools. Garnering a CAGR of 4.6% from 2022 to 2028, the indoor air quality products market in USA is projected to reach worth of USD 3,954 million by 2028-end, according to a new report by Gen Consulting Company.

This industry report offers market estimates of the USA market, followed by a detailed analysis of the product, end user, and region. The USA market data on indoor air quality products can be segmented by product: air cleaners/air purifiers, humidifiers, dehumidifiers, software/analytics. The air cleaners/air purifiers segment held the largest share of the USA indoor air quality products market in 2021 and is anticipated to hold its share during the forecast period. Indoor air quality products market is further segmented by end user: commercial, industrial, residential, others. In USA, the residential segment made up the largest share of the indoor air quality products market. Based on region, the indoor air quality products market is segmented into: Midwest, Northeast, South, West. Southern United States was the largest contributor to the USA indoor air quality products market in 2021.

The commercial market is further segmented into hospitality, hotels and restaurants, long-term care communities, office buildings, retail, schools and universities, others. In 2021, the hotels and restaurants segment made up the largest share of revenue generated by the indoor air quality products market. Furthermore, the industrial market has been categorized into chemical, coal and mining, general manufacturing, oil and gas, power and energy, others. Among these, the general manufacturing segment was accounted for the highest revenue generator in 2021. The residential market is further

divided into apartments, private homes, others. The private homes segment captured the largest share of the market in 2021 and is expected to maintain its dominance during the forecast period.

The USA indoor air quality products market is highly competitive. Top players covered in USA Indoor Air Quality Products Market Study are Camfil AB, Carrier Global Corporation, Daikin Industries Ltd., Honeywell International Inc., Johnson Controls International plc, Lennox International Inc., Mann + Hummel Gruppe, Panasonic Corp., Trane Technologies Inc.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive market assessment across the major geographies, the report is a valuable asset for the existing players, new entrants and the future investors.
