Abstracts

Metallocene is tiny particles of positively charged metal ions sandwiched between two rings of carbon atoms which have five atoms apiece. The advent of metallocene catalysts added a new dimension to commercial polyolefin resins. Metallocene catalysts have some unique advantages over conventional catalysts. Metallocene catalysts were first used to produce quantities of polypropylene in 1995, brand name Achieve by Exxon. Since then, metallocene polypropylene grades have been produced commercially and are delivering superior properties which are valuable in certain end-use market segments especially high MFI fiber grade and injection molded parts. The metallocene polypropylene in China market is expected to increase by USD 63 million, at a compound annual growth rate (CAGR) of 4.1% from 2022 to 2028, according to the latest edition of the Metallocene Polypropylene Market in China Report.

This industry report offers market estimates of the China market, followed by a detailed analysis of the product, and application. The China market data on metallocene polypropylene can be segmented by product: fiber & nonwoven, film & sheet, injection molding. Metallocene polypropylene market is further segmented by application: automotive, consumer & industrial packaging, food packaging, medical, others.

The China metallocene polypropylene market is highly competitive. The competitive landscape of the industry has also been examined along with the profiles of the key players Clariant AG, ExxonMobil Chemical Company, Idemitsu Kosan Co. Ltd., Japan Polypropylene Corporation, LyondellBasell Industries N.V., Mitsui Chemicals Inc., Sinopec Beijing Yanshan Petrochemical Corporation, Total S.A.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive coverage of the market across different market segments, the report is

a valuable asset for the existing players, new entrants and the future investors.

Why buy this report?

Get a detailed picture of the China Metallocene Polypropylene Market

Identify segments/areas to invest in over the forecast period in the China Metallocene Polypropylene Market

Understand the competitive environment, the market's leading players

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. SUMMARY

PART 2. INTRODUCTION

Study period
Geographical scope
Market segmentation

PART 3. METALLOCENE POLYPROPYLENE MARKET OVERVIEW

PART 4. MARKET BREAKDOWN BY PRODUCT

Fiber & nonwoven
Film & sheet
Injection molding

PART 5. MARKET BREAKDOWN BY APPLICATION

Automotive
Consumer & industrial packaging
Food packaging
Medical
Others

PART 6. KEY COMPANIES

Clariant AG
ExxonMobil Chemical Company
Idemitsu Kosan Co., Ltd.
Japan Polypropylene Corporation
LyondellBasell Industries N.V.
Mitsui Chemicals, Inc.
Sinopec Beijing Yanshan Petrochemical Corporation
Total S.A.

PART 7. METHODOLOGY

I would like to order

Product name: Metallocene Polypropylene (mPP) Market in China 2022 - Industry Briefing

Product link: <https://marketpublishers.com/r/M581AFE9FD1BEN.html>

Price: US\$ 700.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
