Abstracts

Also sometimes known as an interactive kiosk, a self service kiosk is essentially a device that allows a consumer to interact directly with a company, receiving a service at their own convenience. A key benefit of self-service kiosks is that they can speed up routine processes, increase throughput and consequently decrease delays and queues. According to latest analysis by Gen Consulting Company, the self-service kiosks in USA market was USD 2,386 million in 2021 and is expected to reach USD 3,611 million in 2028 and register a CAGR of 6.1% during the forecast period, 2022-2028.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into self-service kiosks market in USA. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the self-service kiosks industry.

This industry report offers market estimates and forecasts of the USA market, followed by a detailed analysis of the application, and end user. The USA market for self-service kiosks can be segmented by application: bill payment kiosks, bitcoin kiosks, check-in kiosks, check-out kiosks, digital signage kiosks, financial services kiosks, self-ordering kiosks, others. The check-in kiosks segment captured the largest share of the market in 2021. Self-service kiosks market is further segmented by end user: education institutions, financial services, government, hospitality & entertainment, medical/healthcare, restaurants, retail, travel & transportation, others. The retail segment held the largest share of the USA self-service kiosks market in 2021 and is anticipated to hold its share during the forecast period.
