Abstracts

Titanium dioxide (TiO₂) is a naturally occurring mineral that finds extensive usage as a white pigment in various industries, including paint, coatings, plastics, paper, and cosmetics. It possesses high opacifying properties, which makes it an effective substance for rendering products more opaque or less transparent. TiO₂ is also employed as a UV filter in sunscreens and as a catalyst in chemical reactions. It is a non-toxic and chemically inert substance, thereby qualifying as a safe substance for human use. TiO₂ is produced through a chemical process that involves the extraction of titanium from minerals such as ilmenite and rutile. The extracted titanium undergoes a high-temperature process known as calcination to yield TiO₂. TiO₂ is available in different grades, ranging from high-purity grades used in pharmaceuticals to lower-purity grades used in industrial applications. According to latest analysis, the titanium dioxide in Middle East and Africa market was USD 1,368.3 million in 2022 and is expected to reach USD 2,030.4 million in 2029 and register a CAGR of 5.8% during the forecast period, 2023-2029.

The report covers market size and growth, segmentation, country breakdowns, competitive landscape, trends and strategies for titanium dioxide market in Middle East and Africa. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the Middle East and Africa market, followed by a detailed analysis of the product, form, application, and country. The Middle East and Africa market for titanium dioxide can be segmented by product: nanomaterial grade TiO₂, pigment grade TiO₂. The pigment grade TiO₂ segment held

the largest revenue share in 2022. Titanium dioxide market is further segmented by form: rutile TiO₂, anatase TiO₂. Based on application, the titanium dioxide market is segmented into: paints and coatings, personal care and cosmetics, plastics, pulp and paper, others. The paints and coatings segment captured the largest share of the market in 2022. On the basis of country, the titanium dioxide market also can be divided into: Middle East, Africa.

Market Segmentation

By product: nanomaterial grade TiO₂, pigment grade TiO₂

By form: rutile TiO₂, anatase TiO₂

By application: paints and coatings, personal care and cosmetics, plastics, pulp and paper, others

By country: Middle East, Africa

The report has also analysed the competitive landscape of the titanium dioxide market in Middle East and Africa with some of the key players being Anhui Annada Titanium Industry Co., Ltd., Argex Titanium Inc., China National BlueStar (Group) Co., Ltd., Cinkarna Celje d.d., Evonik Industries AG, GPRO Titanium Industry Co., Ltd., INEOS Group Limited (National Titanium Dioxide Company Limited/Cristal), Ishihara Sangyo Kaisha Ltd., KRONOS Worldwide, Inc., Lomon Billions Group Co., Ltd., Meghmani Organics Ltd. (Kilburn Chemicals Ltd.), National Industrialization Co. (Tasnee), Neiman Group, Ningbo Xinfu Titanium Dioxide Co., Ltd., Pangang Group Vanadium Titanium and Resources Co., Ltd., Sakai Chemical Industry Co., Ltd., Shandong Dawn Titanium Industry Co., Ltd., Shandong Doguide Group Co., Ltd., Shandong Jinhai Titanium Resources Technology Co., Ltd., Tayca Corporation, The Chemours Company, Tianjin Master Technology Co., Ltd., Toho Titanium Co., Ltd., Travancore Titanium Products Ltd., Tronox Holdings plc, Ukrainian Chemical Products - Group DF, Venator Materials PLC, Yunnan Dahutong Titanium Industry Co., Ltd., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the titanium dioxide market in Middle East and Africa.

To classify and forecast the titanium dioxide market in Middle East and Africa based on product, form, application, country.

To identify drivers and challenges for the titanium dioxide market in Middle East and Africa.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the titanium dioxide market in Middle East and Africa.

To identify and analyze the profile of leading players operating in the titanium dioxide market in Middle East and Africa.

Why Choose This Report

Gain a reliable outlook of the titanium dioxide market in Middle East and Africa forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
