Abstracts

4G cloud services utilize the advanced 4G network to deliver virtual and centralized IT resources. The services are fundamentally different from the conventional IT approach as they are delivered over a network 'as-a-service', and on-demand model that allows users to pay as per the usage.

The report analyzes and presents an overview of 4G Cloud Services market worldwide. The report also discusses various strategic corporate developments witnessed by the industry over the last few years. In addition, 19 companies operating in the 4G Cloud Services arena worldwide, including Amazon Web Services Inc., Amdocs Ltd., Google Inc., NICE Systems Ltd., Xchanging PLC, and ZTE Corporation among others are profiled.
