## Abstracts

Tubeless Tires are the tires, which do not include any tube as the air is enclosed between the tire wall and the rim. Tubeless tires include an airtight valve assembly, which firmly fits into the rim or is tightly fixed using nut and sealing washers. Tubeless tires are comparatively safer than tube tires as these tires deflate at a slower pace, provided a sharp object such as glass, nail or thorn is not removed leaving the hole exposed.

The report analyzes and presents an overview of Tubeless Tires market worldwide. The report provides a review of benefits, types of Tubeless Tires and the Indian market Scenario. The report highlights on various strategic industry activities of major companies witnessed by the industry over the last few years. In addition, 38 companies operating in the Tubeless Tires arena worldwide including Apollo Tyres Ltd., Bridgestone Corporation, Hutchinson SA, Maxxis International, Michelin Group, Kamaz Inc., Schwalbe North America, Wilderness Trail Bikes Inc., and others are profiled.
