Abstracts

SUMMARY

Strategic Defence Intelligence's 'AeroControlex Group Inc.: Aerospace and Defense - Company Profile and SWOT Analysis' contains in depth information and data about the company and its operations. The profile contains a company overview, key facts, major products and services, SWOT analysis, business description, company history as well as company locations and subsidiaries.

KEY FINDINGS

This report is a crucial resource for industry executives and anyone looking to access key information about 'AeroControlex Group Inc.'

The report utilizes a wide range of primary and secondary sources, which are analyzed and presented in a consistent and easily accessible format. Strategic Defence Intelligence strictly follows a standardized research methodology to ensure high levels of data quality and these characteristics guarantee a unique report.

SYNOPSIS

AeroControlex Group Inc. (ACG) is a manufacturer of aircraft components. The company operates as a subsidiary of TransDigm Group Inc. It designs, develops and manufactures a wide range of mechanical actuators, pumps and water disinfection systems. ACG's major products include coolant pumps, lube and scavenge pumps, centrifugal pumps, fuel pumps, lubricant and hydraulic pumps. Its mechanical actuators range from ball bearing control cables and sliding control cables to rack and

pinion gear boxes. The company offers engineered products for nuclear and marine industries. Its products find applications in commercial, military and general aviation aerospace markets. The company offers repair and overhaul services for OEM designed and supplied engineered products. Its major distributor partners include Aviall Inc. and Topcast. ACG is headquartered in South Euclid, Ohio, the US

This business intelligence report presents the key company information, essential to understanding industry challenges and competitors.

The SWOT analysis identifies the company's strengths, weaknesses, opportunities for growth and threats. The key competitors are dissected alongside the larger challenges that the industry is facing.

The company profile relays all current information about the business operations, including key employees, major products and services, company history, locations and subsidiaries alongside a supporting statement from the Chairman and Managing Director.

REASONS TO BUY

Quickly enhance your understanding of 'AeroControlex Group Inc.'

Gain insight into the marketplace and a better understanding of internal and external factors which could impact the industry.

Increase business/sales activities by understanding your competitors' businesses better.

Recognize potential partnerships and suppliers.

KEY HIGHLIGHTS

AeroControlex Group Inc. (ACG) is a manufacturer of aircraft components. The company operates as a subsidiary of TransDigm Group Inc. It designs, develops and manufactures a wide range of mechanical actuators, pumps and water disinfection systems. ACG's major products include coolant pumps, lube and scavenge pumps, centrifugal pumps, fuel pumps, lubricant and hydraulic pumps. Its mechanical

actuators range from ball bearing control cables and sliding control cables to rack and pinion gear boxes. The company offers engineered products for nuclear and marine industries.
