## **Abstracts**

Anesthesia Masks (Anesthesia and Respiratory Devices) - Global Market Analysis and Forecast Model (COVID-19 market impact)

### **SUMMARY**

Anesthesia Masks (Anesthesia and Respiratory Devices) - Global Market Analysis and Forecast Model (COVID-19 market impact) is built to visualize quantitative market trends within Anesthesia and Respiratory Devices therapeutic area.

The model discusses in detail the impact of COVID-19 on Anesthesia Masks market for the year 2020 and beyond. Anesthesia masks are typically utilized for a variety of diagnostic and therapeutic surgical procedures to deliver anesthetic gases and oxygen as well as ventilate apneic patients.

Surgical procedures vary from cardiovascular, orthopedic, nervous system, digestive system, urinary system, to ear, nose, throat and cancer related operations. Non-surgical procedures include oxygenation before anesthesia administration, ventilation during resuscitation and continuous ventilation for patients with respiratory compromise. Anesthesia masks are widely utilized in intensive care units, operation theatres and emergency departments for the non-invasive delivery and maintenance of anesthetic gases/vapors. The masks are categorized as disposable and reusable.

Each of the covered 39 country's color-coded and fully-sourced market models are equipped with epidemiology based indications with procedure volumes. To increase the data transparency, the interactive excel deliverable covers installed base, new sales

volumes, product usage, average selling prices, market size and company share/rank analysis (wherever available). Moreover, analyst comments with qualitative insight offer context for quantitative data.

Key Inclusions of the market model are -

Currently marketed Anesthesia Masks and evolving competitive landscape -

Insightful review of the key industry trends.

Annualized total Anesthesia Masks market revenue by segment and market outlooks from 2015-2030.

Granular data on total procedures, units, average selling prices and market values by segment.

Global, Regional and Country level market specific insights -

Qualitative market specific information is available with global trends further broken down into regional trends. In addition GlobalData analysts provide unique country specific insights on the market.

SWOT analysis for Anesthesia Masks market.

Competitive dynamics insights and trends provided for Anesthesia Masks market.

Drive the understanding of the market by getting the veritable big picture including an overview of the healthcare system. In addition the Market Access segment allows you to delve deeper into market dynamics with information on reimbursement policies and the regulatory landscape.

Country specific overview of the healthcare system.

Country specific reimbursement policies.

Country specific medtech regulatory landscape.

Robust methodologies and sources enable the model to provide extensive and accurate overview of the market. Demand and supply-side primary sources are integrated within the syndicated models, including Key Opinion Leaders. In addition, real world data sources are leveraged to determine market trends; these include government procedure databases, hospital purchasing databases, and proprietary online databases.

Companies covered: Ambu A/S , Flexicare Medical Ltd , Draegerwerk AG & Co. KGaA , Intersurgical Ltd. , Smiths Medical , Vyair Medical Inc , Teleflex Inc and Others

Countries covered: United States, United Kingdom, Germany, France, Italy, Spain, Brazil, China, India, Russia, Japan, Australia, Canada, Mexico, South Korea, Denmark, Ireland, Netherlands, New Zealand, South Africa, Sweden, Switzerland, Austria, Belgium, Finland, Israel, Norway, Poland, Portugal, Taiwan, Czech Republic, Greece, Hungary, Turkey, Egypt, Saudi Arabia, United Arab Emirates, Argentina and Chile.

## **SCOPE**

This Market Model gives important, expert insight you won't find in any other source. The model illustrates qualitative and quantitative trends within the specified market. This model is required reading for -

CMO executives who must have deep understanding of the Anesthesia Masks marketplace to make strategic planning and investment decisions.

Sourcing and procurement executives who must understand crucial components of the supply base in order to make decisions about supplier selection and management.

Private equity investors that need a deeper understanding of the market to identify and value potential investment targets.

## **REASONS TO BUY**

The model will enable you to -

Understand the impact of COVID-19 on Anesthesia Masks market.

Develop and design your in-licensing and out-licensing strategies through a review of pipeline products and technologies, and by identifying the companies with the most robust pipeline.

Develop business strategies by understanding the trends shaping and driving Anesthesia Masks market.

Drive revenues by understanding the key trends, innovative products and technologies, market segments, and companies likely to impact the Anesthesia Masks market in the future.

Formulate effective sales and marketing strategies by understanding the competitive landscape and by analyzing the company share of market leaders.

Identify emerging players with potentially strong product portfolios and create effective counter-strategies to gain a competitive advantage.

Track device sales in the global and country-specific Anesthesia Masks market from 2015-2030.

Organize your sales and marketing efforts by identifying the market categories and segments that present maximum opportunities for consolidations, investments and strategic partnerships.
