Highlights

Belize Electricity Ltd (BEL) is a state-owned electricity transmission and distribution company. It sources electricity from local Independent Power Producers (IPP) utilizing hydroelectricity, petroleum, biomass, and solar energy sources; and through its interconnection with Mexico. BEL also generates electricity at its diesel-based electric power plants. The company supplies electricity through its transmission and distribution network. It supplies electricity to residential, commercial, industrial and social customers, among others in Belize, Central America. Its national electricity grid connects all the major municipalities (load centers) in Belize, except for Caye Caulker. BEL is headquartered in Belize City, Belize.
