Key operational heads – A list of personnel heading key departments/functions.

Important locations and subsidiaries – A list of key locations and subsidiaries of the company, including contact details.

## Highlights

Capstone Turbine Corp (Capstone) is a turbine manufacturing company. It develops, manufactures, markets and services low emission microturbine technology solutions and power generation systems. The microturbines offered by the company allow customers to produce power in parallel to on site electric grids and can be used stand alone when no grid is available. Capstone's microturbine systems can be fueled by various sources like sour gas, butane, natural gas, propane and renewable fuels such as digester gas, kerosene, diesel and biodiesel. The company designs microturbines for commercial, industrial, utility customers, onshore and offshore oil and gas applications. Capstone sells its products through a network of distributors and original equipment manufacturers in North America, Latin America, Europe, Middle East, and Africa and Asia-Pacific. Capstone is headquartered in Van Nuys, California, the US.
