### Highlights

Capstone Turbine Corporation (Capstone) is an energy company. It develops, manufactures, markets, and services low-emission microturbine systems. The company integrates patented air bearing technology, advanced combustion technology, and power electronics to form efficient and ultra-low emission electricity and cooling and heat production systems. Capstone's systems can be fueled by various sources, including natural gas, sour gas, propane, renewable fuels such as landfill or digester gas, kerosene, butane, diesel, and biodiesel. Through Combined Heat and Power Partnership with the Environmental Protection Agency of the US, it improves the efficiency of the country's energy infrastructure and reducing emissions of pollutants and greenhouse gases. Capstone sells, installs, and services microturbines through its global distribution network; and original equipment manufacturers. The company designs microturbines for commercial, industrial, and utility users in North America, Latin America, Europe, and Asia Pacific. Capstone is headquartered in Chatsworth, California, the US.
