information is objectively reported.

The profile also contains information on business operations, company history, major products and services, key employees, and locations and subsidiaries.

REASONS TO BUY

Quickly enhance your understanding of 'East Energy Resources Limited'

Gain insight into the marketplace and a better understanding of internal and external factors which could impact the industry.

Increase business/sales activities by understanding your competitors' businesses better.

Recognize potential partnerships and suppliers.

KEY HIGHLIGHTS

East Energy Resources Limited (East Energy) is a coal exploration and development company. The company holds an exploration permit EPC1149 for Coal in the Eromanga basins located in Central Queensland and operates it through Blackall Coal Project. The company also holds five Idalia tenements under this project. The Blackall Coal Project, located to the south of the Blackall township in central western Queensland, is a prospective thermal coal project. This project comprises deposits such as EPC 1149, EPC 1398 and EPC 1399 tenements and covers approximately 2,500 square kilometers. Idalia Coal holds several other coal tenements in the Eromanga Basin, located next to Blackall tenement EPC1149. The company has over six billion tonnes of open cut mineable thermal coal. East Energy is headquartered in Perth, Western Australia, Australia.

Contents
