Important locations and subsidiaries – A list of key locations and subsidiaries of the company, including contact details.

Highlights

Electricity Authority of Cyprus (EAC) is an energy utility, which generates, transmits, distributes and supplies electricity. The authority produces power from crude oil. It owns and operates Moni (open cycle gas turbines), Dhekelia (steam units and internal combustion units), and Vasilikos (steam units, combined cycle units and gas turbine units) power stations. It also develops and manages the national transmission and distribution network. The transmission network connects power stations to load centers. The authority supplies energy to industrial, public lighting, agricultural, commercial, and domestic customers. It also provides customer services such as bill payment, meter reading, complaint about street lighting/tree pruning and others. EAC is headquartered in Lefkosia, Nicosia, Cyprus.

Electricity Authority of Cyprus Key Recent Developments

Apr 08,2021: CESI supports the electricity market in Cyprus

Dec 18,2020: EIB backs 160 MW Vasilikos power plant to support Cypriot energy transition
