Highlights

Gainesville Regional Utilities (GRU) is a community-owned and multi-service utility. GRU operates several utility functions, such as, electric generation, transmission and distribution system; water production and distribution system; waste-water collection and treatment system; natural gas distribution system; telecommunication system; internet services; remote metering services; and outdoor security lighting. GRU serves wide customer base of retail and wholesale customers surrounding Gainesville city. The company has implemented the European model of the Solar Feed-in Tariff (Solar FIT) program, which enables electric customers to invest in solar systems and sell electricity directly to the company. GRU is headquartered in Gainesville, Florida, the US.
