Dutch Insurance Industry - Governance, Risk and Compliance

Summary

GlobalData's "Dutch Insurance Industry - Governance, Risk, and Compliance" report is the result of extensive research into the insurance regulatory framework in the Netherlands.

It provides detailed analysis of the insurance regulations for life, property, motor, liability, personal accident and health, and marine, aviation and transit insurance. The report specifies various requirements for the establishment and operation of insurance and reinsurance companies and intermediaries.

The report brings together GlobalData's research, modeling and analysis expertise, giving insurers access to information on prevailing insurance regulations, and recent and upcoming changes in the regulatory framework, taxation and legal system in the country. The report also includes the scope of non-admitted insurance in the country.

Key Highlights

The Dutch insurance industry is regulated by the DNB and the AFM.

Composite insurance is not permitted in the Netherlands.

Solvency II came into force in the Netherlands on January 1, 2016, and introduced new risk management standards for insurers.

Non-admitted insurance is not permitted. However, insurers from EU and EEA Member States can operate in the industry without a license.

Marine liability, aviation liability, motor third-party liability, workers' compensation, clinical trials liability, professional indemnity and health insurance are the key compulsory classes of insurance in the Netherlands.

The report provides insights into the governance, risk, and compliance framework pertaining to the insurance industry in Dutch, including -
