Highlights

Hydro-Quebec is a government-owned energy utility that generates, transmits and distributes electricity. The company specializes in renewable energy generation, using hydro sources and supports the development of electricity using other technologies such as wind energy and biomass. It generates most of its electricity from hydro sources, with low greenhouse gas emissions. The company also sells power on wholesale markets in northeastern North America. Hydro-Quebec carries out research and development in energy related fields. It distributes electricity to a number of residential and commercial customers in Quebec. The company has operational presence in the US and Canada. Hydro-Quebec is headquartered in Montreal, Quebec, Canada.
